Introduction

This guide sets out the requirements for payrolls in respect of the Local Government Pension Scheme (LGPS) 2014, effective from 1st April 2014. The guide only applies to the LGPS relating to employees in England and Wales. It does not cover:

- councillors in England. Those councillors in England who were in the LGPS on 31st March 2014 will, in accordance with regulation 26 of the LGPS (Transitional Provisions, Savings and Amendment) Regulations 2014 remain eligible for membership of the councillor section of Scheme under the LGPS Regulations 1997 until the end of the term of office they were serving on 1st April 2014, or
- councillors in Wales. They remain eligible for membership of the councillor section of Scheme under the LGPS Regulations 1997.

Please note this guide is in addition to, and does not replace, any requirements agreed with the Pension Fund administering authority in respect of information to be provided to them to enable them to administer the 2008 Scheme. It is intended to inform payroll providers and employers of the minimum information needed to effectively manage the 2014 Scheme (and its interaction with the 2008 Scheme – see [section 6](#)). **Wherever possible, we ask that users contact their administering authority with any queries they have regarding the new Scheme before getting in touch with a member of the LGA Pensions team.**

The examples provided in sections of this guide are for illustration only and do not override any regulatory or statutory requirements.

PDFs of the most recent versions of the guide are below. Tracked changes within the PDFs detail how newer versions differ from their earlier incarnations. PDF copies of all previous versions of this guide are available on request from the LGA Pensions team.

PDF Versions

| Version | Date of version | Amendments |
|--|---------------------------|---|
| Version 3.9 [tracked] Version [clean] | 16 October 2015 3.9 | Please see within PDF for tracked changes. Current web version. |
| Version 3.8 [tracked] Version [clean] | 8 April 2015 3.8 | Please see within PDF for tracked changes. |

1. Data

The following data is to be held so that it can be made available to pension administrators within 3 months of the end of each Scheme year (the Scheme year runs from 1st April to 31st March), or on termination of Scheme membership, in respect of each job. If further pensionable payments are made after termination of Scheme membership in a job and after data has already been submitted to the Pension Fund administering authority, the revised data (if the payment is made in the year of leaving) or new data (if the payment is made in a year after leaving) should be submitted to the Pension Fund administering authority together with the date the additional payment was made.

Note that termination of Scheme membership in a job occurs when either the employer notifies payroll that the employee has opted out of the Scheme (in that job), or has ceased employment in that job, or has attained age 75. Termination does not occur when an employee moves between jobs in the same employment (see definition of single employment relationships in the records section).

It should be stressed, as noted in [section 2](#), that where an employee holds more than one job with the employer, each of the fields in the table below are to be held per job. The employee can be in the main section in one job and the 50/50 section in another job.

| New Scheme Data | |
|---|--|
| Main section Cumulative Pensionable Pay (CPP1) | The total Pensionable Pay* (PP) and/or Assumed Pensionable Pay (APP) in the main section for the Scheme year (1 April – 31 March) |
| Main section Cumulative Employee's Contributions (CEC1) | The total employee's contributions in the main section for the Scheme year |
| 50/50 section Cumulative Pensionable Pay (CPP2) | The total Pensionable Pay* (PP) and/or Assumed Pensionable Pay (APP) in the 50/50 section for the Scheme year |
| 50/50 section Cumulative Employee's Contributions (CEC2) | The total employee's contributions in the 50/50 section for the Scheme year |
| Cumulative Additional Employee's Contributions (CAC) per type i.e.: - additional pension contribution (EAPC) - additional voluntary contribution (EAVC) | The total additional employee's contributions (per type) for the Scheme year i.e.: - additional pension contribution (EAPC) – both where the whole cost is to the employee and also the employee element of a shared cost APC - additional voluntary contribution (EAVC) – inclusive of non life assurance (whole cost to employee), life assurance (whole cost to employee), and employee element of a shared cost AVC for life assurance, pension salary sacrifice, or other part cost to the employee |
| Cumulative Employer's Contributions (CRC) | The total employer's contributions in both sections for the Scheme year |
| Cumulative Additional Employer's Contributions (CARC) per type i.e.: | The total additional employer's contributions (per type) for the scheme year i.e.: |

| | |
|--|---|
| - additional pension contribution (RAPC) | - additional pension contribution (RAPC) – both where the whole cost is to the employer and also the employer element of a shared cost APC |
| - shared cost additional voluntary contribution (RAVC) | - shared cost additional voluntary contribution (RAVC) – employer element of a shared cost AVC for life assurance, pension salary sacrifice, or other part cost to the employer |
| Dates of active membership during the Scheme year** | <p>Either:</p> <ul style="list-style-type: none"> - the date of the beginning of the Scheme year , or - the date became an active member of the Scheme in the employment during the Scheme year (if later) <p>Plus</p> <ul style="list-style-type: none"> - the date of the end of the Scheme year, or - the date ceased to be an active member of the Scheme in the employment during the Scheme year (if later) |
| Additional Data (per employment)** | |
| Section of the Scheme*** | Section of the Scheme the employee was a member of in the employment at the end of the Scheme year or at the date of cessation of active membership in the employment. |
| 2008 Scheme Data | |
| FTE Final Pay (FFP) | Full time equivalent pensionable pay in respect of the employment for the scheme year |

*Including the value of emoluments specified in the contract of employment as being pensionable emoluments (including the pensionable emolument value of salary sacrificed for such items as child care vouchers, and for pension contribution salary sacrifice via a shared cost AVC arrangement).

**See explanation at [section 10](#).

***The LGPC Secretariat believe that this information should be provided to the Pension Fund administering authority as it is required to ensure the member's pension record is correct and up to date and because the information may be needed to produce projections for Annual Benefit Statements.

Again it should be noted that the above specification shows the information required as a result of the 2014 Scheme, effective from 1st April 2014. It does not replace or remove the requirement for any other data being supplied to your Pension Fund administering authority to enable them to administer the 2008 Scheme (e.g. personal details, date joined fund, AVCs, etc. - see [section 6](#) for more information on information required for pre 2014 members).

In diagrammatical form, the payroll data to be held for each Scheme year (1st April to 31st March) to produce the monthly and end of year / leaving data shown in sections [9](#) and [10](#) is as shown in the chart located [here](#).

2. Records

Separate records of cumulative amounts must be maintained for each job the employee holds unless the employer determines that a single employment relationship exists. This is the same requirement as under automatic enrolment legislation and although not a change from current requirements the need to calculate pensions on a year by year basis means that separate records are vital to the task and therefore worth re-emphasising.

Examples of where the employer may determine a single employment relationship exists are:

- Two concurrent employments where, if one is terminated, the other must be terminated at the same time
- Two sequential employments without a break (e.g. a promotion)

Where a single relationship does not exist separate records will be required for each job in order to calculate and hold the data needed to correctly determine the amount of pension accrued in each year for each job.

Example 1

An employee has two concurrent part time jobs with the same employer who has not informed payroll that a single employment relationship exists. Two records should be held for this employee and the data should be supplied to the Pension Fund administering authority as two lines of data both identifiable as the employee (e.g. NI Number) but each uniquely identified as different jobs (e.g. post/payroll number). If one of the jobs ceases this should be treated as a leaver for pension purposes (with the data in respect of that leaver available for reporting to the Pension Fund administering authority at the date of leaving).

Example 2

An employee is promoted to a new job and no termination of employment notice has been received by payroll. The data should be supplied to the Pension Fund administering authority as a single set of cumulatives which include amounts from both jobs.

Where separate employment relationships exist and where the person is being paid on timesheet claim, it is imperative that timesheet design (and instructions for completion from HR) includes information that identifies which hours are in relation to which job.

3. Sections

The LGPS 2014 contains two sections – the main or 100/100 section and the 50/50 section. The data requirements for both sections are the same apart from the employee contribution calculation which in the 50/50 section is half that which would be due in the main section (see [section 5](#) - cumulative contributions). Note that the employer contribution is still the normal full contribution rate (not half).

In the absence of a 50/50 election before the payroll has been closed (please note that an employee cannot complete a 50/50 election before commencing employment) a new employee, or an existing employee commencing a new employment for which a separate record is required (see [section 2](#)) or an optant out electing to join the Scheme or being auto-enrolled or re-enrolled should be put into the main section on commencement of that employment / opting into membership of the Scheme / being automatically enrolled or automatically re-enrolled, after which the following circumstances may lead to a change of section during the Scheme year.

- Notification that the employee has elected to move from the main section to the 50/50 section (or vice versa) from the beginning of the next available pay period following the election.
- If the employee is in the 50/50 section and goes onto no pay due to sickness or injury, the employee must be moved back into the main section from the beginning of the next pay period if they are still on nil pay at that time. This would even be the case where, for example, an employer has a policy of nil pay for the first 3 days of sickness, and the first 2 days of sickness fall at the end of one pay period and the third day is the first day of the following pay period – in such a situation the employee would have to be put into the main section from the beginning of that next pay period. The person will, of course, have the right to make a further 50/50 election which, if made before the payroll is closed, would mean the member would have continuous 50/50 membership.
- If the employee is in the 50/50 section and goes on to no pay during ordinary maternity leave, ordinary adoption leave or paternity leave, the employee must be moved back into the main section from the beginning of the next pay period if they are still on nil pay at that time.
- If the employee is in the 50/50 section they must be moved back to the main section from the beginning of the pay period following the employers' "automatic re-enrolment date". This would happen irrespective of what category of worker they are for the purposes of the Pensions Act 2008. Note that the initial "staging date" for those employers who meet their "staging date" after 31st March 2014 has no implication for existing 50/50 elections. The person will, of course, have the right to make a further 50/50 election which, if made before the payroll is closed, would mean the member would have continuous 50/50 membership.

Please note that both the main section and the 50/50 section of the LGPS are a "qualifying scheme" for automatic enrolment purposes from April 2014.

NB: Those terms highlighted in quotation marks in the text above are to be construed in accordance with the Pensions Act 2008.

For more information on Automatic Enrolment and the LGPS please read the LGPC's [Automatic Enrolment Guide](#).

The dates an employee joined and ceased membership of a section must be held (per job), as specified in the table in [section 1](#).

Separate cumulative amounts for pensionable pay and employee contributions should be maintained for each section (as specified in the table in [section 1](#)). However, it is not necessary to maintain separate cumulative amounts for employer's contributions per section (other than as specified in the table in [section 1](#)).

It should be noted that if a member moves to the 50/50 section:

- any existing additional pension contribution (EAPC) contract which is at whole cost to employee must cease (unless it is to purchase an amount of pension “lost” due to a trade dispute or due to a period of authorised leave of absence or period of unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave where the member is paying the full cost of the APC*, in which case it continues, unless the member elects to terminate the contract)
- any shared cost additional pension contribution (EAPC/ RAPC) contract must cease (unless it is to purchase an amount of pension “lost” during a period of authorised leave of absence or during a period of unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave, in which case it continues, unless the member elects to terminate the contract)
- any AVC (EAVC) or Shared Cost AVC (EAVC/RAVC) contract continues unless the member elects to terminate the contract.

[*i.e. the member made an APC election more than 30 days (or such longer period as the employer may allow) after returning from a period of authorised leave of absence or period of unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave, thereby missing the deadline for the employer to compulsorily contribute to a shared cost APC, or the APC is to cover a period of absence beyond 36 months.]

It should also be noted that on movement to the 50/50 section any existing contributions to:

- an AVC/SCAVC
- an APC to purchase an amount of pension “lost” due to a trade dispute or due to a period of authorised leave of absence or period of unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave where the member is paying the full cost of the APC
- a SCAPC to purchase an amount of pension “lost” during a period of authorised unpaid leave of absence or during a period of unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave, or
- an additional regular contribution (ARC), added years, Preston part-time buy-back, or additional survivor benefit contribution (ASBC) contract / arrangement in force prior to 1st April 2014 – see [section 6.4](#)

are not reduced to half rate. The contributions under such contracts / arrangements continue to be paid in full i.e. the full percentage rate or flat rate sum due under the relevant contract / arrangement).

A member in the 50/50 section cannot commence payment of an additional pension contribution (EAPC) contract which is at whole cost to the employee (unless it is to purchase an amount of pension “lost” due to a trade dispute or due to a period of authorised leave of absence or period of unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave where the member is paying the full cost of the APC).

A member in the 50/50 section can only commence payment of a shared cost additional pension contribution (EAPC/ RAPC) contract if such a contribution is to purchase an amount of pension “lost” during a period of authorised unpaid leave of absence or during a period of unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave.

A member in the 50/50 section can commence payment of an AVC (EAVC) or Shared Cost AVC (EAVC/RAVC) contract.

A member in the 50/50 section can commence payment of Preston part-time buy-back contributions.

It should be noted that if a member moves to the main section:

- any existing additional pension contribution (EAPC) must continue, unless the member elects to terminate the contract.
- any shared cost additional pension contribution (EAPC/ RAPC) contract must continue, unless the member elects to terminate the contract.
- any AVC (EAVC) or Shared Cost AVC (EAVC/RAVC) contract continues unless the member elects to terminate the contract.
- any additional regular contributions (ARC) contract must continue unless the member elects to terminate the contract.
- any added years contract must continue unless the member elects to terminate the contract.
- any additional survivor benefit contributions (ASBC) contract must continue unless the member elects to terminate the contract.
- any Preston part-time buy-back contributions must continue.

A member in the main section can commence payment of an additional pension contribution (EAPC) contract which is at whole cost to the employee.

A member in the main section can commence payment of a shared cost additional pension contribution (EAPC/ RAPC) contract.

A member in the main section can commence payment of an AVC (EAVC) or Shared Cost AVC (EAVC/RAVC) contract.

A member in the main section can commence payment of Preston part-time buy-back contributions.

Example 3

A monthly paid employee opts for the 50/50 section on 29th June (after the June payroll had closed). The payroll should be amended to show the employee in the 50/50 section from the July pay period. Movements between sections are unique to each job unless a single employment relationship exists in which case movements will apply across all of the jobs in that relationship.

Example 4

An employee with two concurrent jobs opts for the 50/50 section. If no single employment relationship exists the employee may opt to be in the 50/50 section in either or both jobs. If a single employment relationship does exist the option applies to both jobs.

Example 5

An employee finishes one job and starts another without any notification that employment has ceased (e.g. they are promoted with the same employer). If the employee had opted for the 50/50 section in the first job that option should be carried forward to the second job. If a notification was received from the employer that employment has ceased then the jobs should be treated as a termination and a new starter and the employee put into the main section in the new job.

Employers will need to provide the dates of movements between sections to the Pension Fund administering authority when they occur and, at year end (or date of leaving if earlier),

confirm to the administering authority which section the member was in at that time. Each employer will need to determine the most effective method to achieve this which may or may not involve the payroll system holding these dates.

4. Cumulative Pensionable Pay (CPP1 and 2)

This is the cumulative Pensionable Pay (PP) and/or Assumed Pensionable Pay (APP) in either section of the Scheme in the Scheme year, including the value of emoluments specified in the contract of employment as being pensionable emoluments (including the pensionable emolument value of salary sacrificed for such items as child care vouchers, and for pension contribution salary sacrifice via a shared cost AVC arrangement). The cumulative pensionable pay must be provided separately for each section (and per job) as different accrual rates will apply when calculating the pension in each section. If the employee moves between sections more than once in a Scheme year there is no requirement to differentiate cumulatives between different periods in the same sections (although the dates the member was in each section need to be provided to the pension fund administering authority). The cumulative amounts should contain all of the PP and/or APP in each section during the year.

Note that any pensionable pay received after 31st March 2014 which relates to a period prior to 1st April 2014 should not be included in CPP1 or CPP2.

Example 6

Employee opts for the 50/50 section 3 months into the Scheme year at which point the accrued CPP1 is £3,000. The employee spends 6 months in the 50/50 section accruing £6,000 in CPP2 then opts back into the main section for the final three months of the year accruing a further £3,300 in CPP1. The cumulatives at the end of the Scheme year are CPP1 £6,300 and CPP2 £6,000.

4.1 Pensionable Pay

The definition of pensionable pay in the 2014 Scheme is, basically, the same as in the 2008 Scheme – i.e. all payments in respect of the job apart from those listed in regulations as exclusions, but there are three main differences. The first significant change is that non-contractual overtime has been removed from the exclusions list and so, from 1st April 2014, non-contractual overtime becomes pensionable.

The second change is that a payment in consideration of loss of future pensionable payments or benefits is, from 1st April 2014, not pensionable. So, for example, where employer changes an employee's contract to remove contractual overtime and gives a lump sum payment in consideration for the loss of future pensionable payments (because the number of voluntary hours of overtime are expected to be less than the former number of contractual hours of overtime), that lump sum would be non-pensionable. Similarly, where an employer reduces the pay of an employee but offers a 'marked time' payment (e.g. to bring the employee's pay up to the former rate of pay for a limited period of time) the

employer could, by defining that ‘top-up’ sum in the ‘marked-time’ agreement as a sum to be paid each pay period for a period of X months in consideration of the loss of future pensionable payments make the ‘top-up’ payment non-pensionable.

The third change is that, from 1st April 2014, any actual pay paid **by the Scheme employer** to a reservist during Reserve Forces Service Leave is not pensionable. Note that whilst on reserve forces service leave the employee and the Ministry of Defence pay contributions on the amount of Assumed Pensionable Pay (see [section 4.2](#)).

The LGPS Regulations define pensionable pay as follows:

Meaning of pensionable pay

20. —(1) Subject to regulation 21 (assumed pensionable pay), an employee’s pensionable pay is the total of—

- (a) all the salary, wages, fees and other payments paid to the employee, and
- (b) any benefit specified in the employee’s contract of employment as being a pensionable emolument.

(2) But an employee’s pensionable pay does not include—

- (a) any sum which has not had income tax liability determined on it;
- (b) any travelling, subsistence or other allowance paid in respect of expenses incurred in relation to the employment;
- (c) any payment in consideration of loss of holidays;
- (d) any payment in lieu of notice to terminate a contract of employment;
- (e) (e) any payment as an inducement not to terminate employment before the payment is made;
- (f) any amount treated as the money value to the employee of the provision of a motor vehicle or any amount paid in lieu of such provision;
- (g) any payment in consideration of loss of future pensionable payments or benefits;
- (h) any award of compensation (excluding any sum representing arrears of pay) for the purpose of achieving equal pay in relation to other employees;
- (i) any payment made by the Scheme employer to a member on reserve forces service leave;
- (j) returning officer, or acting returning officer fees other than fees paid in respect of—
 - (i) local government elections,
 - (ii) elections for the National Assembly for Wales,
 - (ii) Parliamentary elections, or
 - (iv) European Parliamentary elections.

The LGPS (Transitional Provisions, Savings and Amendment) Regulations 2014 provide that to the above list should be added “any supplement paid

- (a) to an employee whose employment transferred on 1st April 1996 to the Environment Agency or to such an employee who subsequently transferred on 1st April 2013 to the Natural Resources Body for Wales; or
- (b) to an employee whose employment transferred on 1st April 2010 from the Learning and Skills Council for England to a local authority or to London Councils Limited, in recognition of the difference in contribution rates between members of the principal civil service pension scheme and the 2008 or 2014 LGPS Schemes.

The LGPS (Transitional Provisions, Savings and Amendment) Regulations 2014 also provide that, despite the entry at (f) above, if

- (a) an employee's pensionable pay at both 31st December 1992 and 31st March 1998 included an amount treated as the money value to the employee of the provision of a motor vehicle or any amount paid in lieu of such provision, or
- (b) an employee was, immediately before 2nd May 1995 in the process of converting the provision of a motor vehicle into an amount paid in lieu of such provision where the process was concluded before 1st July 1995 and the employee's pensionable pay at 31st March 1998 included such an amount,

the relevant amount remains pensionable until such time as the member leaves employment with the employer who was employing him / her on 31st December 1992 (otherwise than as a result of a transfer to another Scheme employer which is beyond the employee's control) or ceases to be provided with a motor vehicle or an amount representing the money value to him / her of the provision of such a vehicle.

Note that unlike in the 2008 Scheme, where benefits are based on the pensionable pay due for a period, not pensionable pay received in that period, benefits in the 2014 career average Scheme will be calculated based on the pensionable pay that is received in the Scheme year (1 April to 31 March) and not the pay due during that period. There is therefore no need to adjust pensionable pay on payment of arrears or other payments which are paid in the current pay period but not related to the current pay period.

Please note, however, that any pensionable pay received after 31st March 2014 that relates to a period prior to 1st April 2014 should not be included in CPP1 or CPP2 – see [section 7](#). Also, it would seem logical that any payments made after an employee elects to join the LGPS or is automatically enrolled or re-enrolled into the LGPS that relate to a period prior to the employee joining the LGPS should not be pensionable and so should not be included in CPP1 or CPP2. However, the LGPS Regulations 2013 are not clear on this point. An argument for including such pay in CPP1 or CPP2 is that regulation 20(1)(a) states that pensionable pay is "all the salary, wages, fees and other payments paid to the employee" and regulation 20(2) does not exclude payments made to a member of the Scheme that relate to a period prior to joining the Scheme. An alternative argument would be that regulation 9(1) of the LGPS Regulations 2013 says that where an employee commences membership part way through a Scheme year, pension contributions are payable on "the annual pensionable pay the member receives at the commencement of membership"; thus any payments made after commencement of membership that relate to a period prior to commencement of membership is not "pensionable pay" as it relates to pay due prior to commencement of membership. If the payment had been made at the correct time (before commencement of membership) it would not have been pensionable; so why should the payment become pensionable simply because payment is delayed (either by the employee or the employer) until after the employee has joined the Scheme? The regulations governing the 2008 Scheme were equally unclear on this point.

Pensionable pay and salary sacrifice

HMRC approved salary sacrifice arrangements where an employee has their contractual pay reduced by an agreed amount (supported by a variation to their contract) in return for a tax assessable benefit in kind from which income tax liability is then removed will remain pensionable under the 2014 Scheme (where the benefit in kind is specified in the employee's contract of employment as being a pensionable emolument). Thus, the position remains the same as in the 2008 Scheme – see [LGPC Circular 244](#) for more information.

Where holiday entitlement is sold in return for additional remuneration, the extra pay will (as in the 2008 Scheme) be non-pensionable, because it is a “payment in consideration of loss of holiday”.

Where an employee forgoes remuneration in return for additional days of holiday this is, in effect, authorised unpaid leave of absence. Many employers have introduced such cost saving arrangements as a mechanism to help deal with budget constraints. If such authorised unpaid leave of absence reduces a person's income prior to tax and NIC deductions, the value of this cannot be added back in to a member's pensionable pay as a pensionable emolument because there has been no income tax liability determined on that amount. However, if instead a net deduction is made in respect of the value of the additional leave and income tax and NICs are deducted from the member's full pay, the member's pensionable pay would also be the full amount. This is set out in more detail in the third option described below.

Even if an annual leave purchase scheme is an HMRC approved salary sacrifice scheme, the purchased annual leave is only pensionable where income tax liability has been determined on the value of that annual leave.

In the 2008 Scheme the employer and employee were required to pay their respective contributions on the first 30 days of authorised unpaid leave of absence, with the contributions being based on the amount of remuneration the employee would have received but for the absence. However, in the 2014 Scheme, there is no requirement for contributions to be paid for the first 30 days of authorised unpaid leave of absence. Instead, it is the employee's choice as to whether or not to cover the period of absence for pension purposes. If the employee chooses to do so this will be by paying an age-related Additional Pension Contribution (APC) to cover the amount of pension 'lost' during the period of authorised unpaid leave of absence – see [section 5.3](#) for further details.

It should be noted that an employer might take a different approach to that set out above. Instead of introducing a system whereby an employee forgoes remuneration in return for additional days of holiday, the employer might make a change to the employee's contract of employment whereby the employee is only required to work for, say 360 days a year (in the same way that a term-time employee may contractually only be required to work term-time). In the first approach, if the member is on, say, £20,001 a year and takes 5 days authorised unpaid leave of absence (for which a deduction will be made from pay) the employee contribution rate would be determined on a salary of £20,001 and the employee could purchase the pension 'lost' during those 5 days leave of absence by electing to pay an APC. If the member makes the APC election within 30 days of returning from the absence (or such longer period as the employer may allow), it would be a shared cost APC i.e. the employer would compulsorily have to contribute 2/3rds of the cost of that APC – see [section 5.3](#) for further details. However, under the second approach, the member's salary would be £19,727 and if the member wanted to purchase the equivalent of the pension that would have been earned for another 5 days works they could do so via an APC. However, this would be at whole cost to the member (unless the employer voluntarily agreed to contribute towards the cost of that APC) – see [section 5.3](#) for further details. Of course, under the second approach, regulations 8 to 10 of the LGPS (Benefits, Membership and

Contributions) Regulations 2007 would apply if the member has membership prior to 1 April 2014, meaning that the final pay used to calculate the member's pre 1st April 2014 pension benefits would be the best one of the last 3 years pay or, if the pay reduction occurred in the 10 years preceding the date of leaving, the average of any 3 consecutive years ending on a 31st March in the last 13 years.

A third approach is where the employer continues to pay the employees in full (so each month's pay would attract full tax, National Insurance and pension contributions) but has the agreement of the employee to deduct a **net** sum on the deductions side of the payslip (i.e. the net sum the employee would have received for the day's leave after deduction of tax, NI and pension contributions). This overcomes the problem of having, in the first approach, to treat the leave as unpaid leave of absence and means there would be no effect on the employee's pension and no need for them to elect to purchase the period via an APC; and it overcomes the problem in the second approach of reducing the employee's pensionable pay and having to apply regulations 8 to 10 of the LGPS (Benefits, Membership and Contributions) Regulations 2007 if the member has membership prior to 1 April 2014.

A net deduction can be made provided it is:

- authorised by the employee's contract - provided the employee has been given a written copy of the relevant terms or a written explanation of them before it is made, or
- consented to by the employee in writing before it is made.

4.2 Assumed Pensionable Pay

This replaces the concept of notional or 'as was' pay in cases of reduced contractual pay or nil pay as a result of sickness or injury; or during relevant child related leave (i.e. ordinary maternity, paternity or adoption leave or paid shared parental leave and any paid additional maternity or adoption leave); or whilst on reserve forces service leave (if the employee, although eligible to be in the Armed Forces Pension Scheme during that period, has elected to remain a member of the LGPS). In these circumstances (and only in these circumstances) the amount added to the CPP should be the APP and not any PP received, unless the PP received for any given day in that period is greater than the APP (e.g. pay from KIT day(s), SPLIT day(s) or Stringer day(s)), in which case PP is added to CPP for that day and APP is added for the other days. Note that the APP figure calculated prior to the KIT, SPLIT or Stringer day(s) is not recalculated following the KIT, SPLIT or Stringer day(s) i.e. the same APP figure continues to apply during the remainder of the relevant child related leave.

Calculation

APP is calculated as an annual rate then applied to the relevant period as a proportion of that rate. The annual rate of APP is calculated as follows for any employee whose pay periodicity is other than monthly (e.g. weekly, fortnightly, lunar, quarterly, half yearly).

Pay periodicity other than monthly - calculate the average of the pensionable pay for the 12 complete weeks prior to the relevant event after removing any pensionable lump sum payments, but including any APP previously credited in and relating to those pay periods. If arrears of pay are paid in the 12 week period, some or all of which relates to a period prior

to the commencement of the 12 week period, the back pay relating to the period prior to the commencement of the 12 week period can be treated as a non-regular lump sum payment and, thus, removed from the calculation. Gross up to an annual figure. If the pensionable pay in the period has been reduced as a result of an absence due to a trade dispute or an absence authorised by the employer, the reduction is to be ignored when calculating the average pensionable pay for the 12 weeks. If 12 complete weeks' pay does not exist use whatever number of complete periods are available.

The relevant event is the date on which the employee drops to reduced **contractual** pay or nil pay due to sickness or injury, or commences child related leave (i.e. ordinary maternity, paternity or adoption leave or paid shared parental leave), or the date the member commenced reserve forces service leave.

Note that APP does NOT accrue during any period of unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave available at the end of relevant child related leave; this is to be treated as unpaid leave of absence.

Monthly paid - For a monthly paid employee three complete pay periods should be used instead of 12 weeks but the calculation is the same as outlined above (replacing references to "12 complete weeks" with a reference to "3 months").

Note: the calculation of APP can include pensionable pay prior to 1st April 2014 (i.e. where the 12 weeks / 3 months goes back beyond 1st April 2014). This caters, for example, for members who would be on APP from day one of the 2014 Scheme (because on 1st April 2014 they are already on reduced contractual pay or no pay due to sickness or injury). If pensionable pay prior to 1st April 2014 is included it is the pensionable pay as defined under the 2008 Scheme that is included (not what the pre 1st April 2014 pensionable pay would have been if it had been determined under the definition of pensionable pay in the 2014 Scheme). It should also be noted that the LGPS Regulations 2013 do not specify how the grossing up to an annual equivalent pay figure should be performed. For monthly paid employees the calculation is straight forward (see Examples 7A and 7B). However, for employees paid other than monthly, there is no standard procedure. However, whatever multiplier is used should form the basis for the divisor (see the [section on "Proportioning"](#) below).

Example 7A

A monthly paid employee has received the following pensionable pay in the three complete months prior to the relevant event.

Month 1 £1,400, Month 2 £2,500 (including a £1,000 regular bonus and £100 overtime)
Month 3 £1,400.

The calculation of APP is as follows:

Annual rate of APP = $(£1,400 + £1,500 + £1,400) / 3 * 12 = £17,200$

Note that the £1,000 bonus is removed prior to the averaging and grossing up calculation.

Lump sums

APP may be increased at the time of calculation where the employer, at their sole discretion, decides to add back into the APP any regular lump sum payment paid in the last 12 months before the relevant event. The employer must determine, at the point APP commences, whether there is a 'reasonable expectation' that a regular lump sum payment received in the previous 12 months would be paid again during the period where APP applies and, if so, whether that lump sum already paid should be added back into the APP annual rate figure.

Example 7B

In example 7A, the member received a regular annual bonus of £1,000 in the period before going on to APP. In calculating the flat rate average APP the lump sum was removed. In deciding whether or not the lump sum should be added back into the APP annual rate the employer should reasonably assess if in their view the employee will still be on APP the next time the lump sum is due to be paid. Therefore, if in the employer's reasonable assessment the period of APP will extend to 11 months or more and the £1,000 bonus would have been paid again within the period of APP then the amount could be added back into the annual APP rate i.e.

Annual rate of APP = $(£1,400 + £1,500 + £1,400)/3 * 12 = £17,200 + £1,000$ (future bonus) = £18,200

It is recognised that the £1,000 has already been included in the CPP prior to going on to APP and so, if added back into APP, this will result in an element of double counting. Employers will wish to take this into consideration when making their decision. The number of cases is likely to be small.

APP and Separate Employments

The calculation of APP uses the 3 complete months or 12 complete weeks pensionable pay the member receives relating to **that employment** before the period of reduced contractual pay or nil pay due to sickness or injury, or relevant child related leave commenced or the date the member commenced reserve forces leave.

If during the period of 3 months or 12 weeks pensionable pay used to calculate the APP the member ceases one employment and is reemployed on a new contract of employment the calculation of the value of the APP is based on the pensionable pay received in the new employment only using the number of complete weeks or complete months available in that employment to calculate the APP.

Proportioning

When determining the proportion of the annual APP rate to be added to the CPP the same method used for determining part periods for other reasons should be maintained. Therefore, if it is necessary to calculate one day's APP use whatever method is normally used to calculate one day's pay from an annual rate. However, it is important that the method reflects the methodology used to calculate the annualised APP figure. Thus, for example:

- if 12 weeks' pay have been grossed up to an annual rate using the formula 52/12 then the divisor for working out a week's pay would then be annual pay/52 (and for a fortnightly paid employee the divisor would be 26 and for a lunar paid employee it would be 13), or
- if 12 weeks' pay have been grossed up to an annual rate using the formula 52.143/12 then the divisor for working out a week's pay would then be annual pay/52.143 (and for a fortnightly paid employee the divisor would be 26.0715 and for a lunar paid employee it would be 13.03575), or
- if 12 weeks' pay have been grossed up to an annual rate using the formula 53/12 then the divisor for working out a week's pay would then be annual pay/53 (and for a fortnightly paid employee the divisor would be 26.5 and for a lunar paid employee it would be 13.25). Note, however, that using a formula of 53/12 is **not** recommended as it produces an incorrect outcome when calculating an annualised Assumed Pensionable Pay figure for use in calculating the ill health pension enhancement for an employee

retiring with a Tier 1 or Tier 2 ill health pension, or in calculating the lump sum death grant for a member who dies in service in a year with 53 weeks (compared to the figure that would have been calculated if the person had retired or died in a year with 52 weeks).

Whichever methodology is adopted the weekly pay figure should always come out as the same figure. Thus, if a weekly paid employee is on leave for 3 weeks, the amount of APP is 3 x the calculated weekly APP figure. If a weekly paid employee is absent for 40 weeks, then the amount of APP is 40 x the calculated APP figure (and it is immaterial whether there was a week 53 on payroll falling within that 40 week period – the total APP is still 40 x the calculated APP figure). Thus, if the 40 weeks span a year end in a 52 week year then, for example, 20 of the weeks might fall before the year end and 20 in the following year; but if the year was a 53 week year, 21 would fall before the year end and 19 in the following year.

Example 8

A monthly paid employee goes on sick leave and drops to reduced pay on 15th June and stays on that until 4th September when they return to normal working. The employee is in the main section throughout. CPP1 is therefore accrued as follows:

June – 14 days of Pensionable Pay plus 16 days at the APP rate

July – APP

August – APP

September – 3 days APP plus 27 days of pensionable pay

Note that in cases of employees on relevant child related leave (i.e. ordinary maternity, paternity or adoption leave or paid shared parental leave and any paid additional maternity or adoption leave) who return for KIT days, SPLIT days or Stringer days the pensionable pay (and not APP) for those days should be added to the CPP if the pensionable pay received for that day is higher than the APP daily rate. The APP applying after the KIT day, SPLIT day or Stringer day will be the same as that applying before the KIT day, SPLIT day or Stringer day (i.e. there is no need to recalculate APP simply because the employee has undertaken a KIT day, SPLIT day or Stringer day during the period of relevant child related leave). Please see [example 18](#) to see how this works for both the CPP and CEC cumulatives.

Adjusting the APP figure

The APP, as calculated above, is adjusted where the APP figure continues for a period that crosses two 31st March dates. Where an employee is, for example, on long term sick leave, APP is adjusted at midnight on the second 31st March following the date APP commenced. The adjustment is the percentage adjustment specified in the Treasury Revaluation order for that (second) Scheme year ending on that 31st March. If the APP continues for a further year it will be revalued at midnight on the third 31st March following the date APP commenced. The adjustment is the percentage adjustment specified in the Treasury Revaluation Order for that (third) Scheme year ending on that 31st March (and so on thereafter).

Example 9

A monthly paid employee goes on sick leave on reduced pay from 15th June. The annual APP figure is calculated as shown in [example 7B](#) and is £18,200. At the following 31st March the member is still on sick leave (and, by that time, is on no pay). The annual APP figure of £18,200 is not increased at that 31st March and continues to be used from 1st April. If the employee is still on sick leave (with no pay) at the subsequent 31st March the figure of £18,200 will be adjusted by the annual percentage figure specified in the HM Treasury Revaluation Order. If this is 2%, then the annual APP figure from the second 1st April following the point when the person went onto sick leave on reduced / no pay will be increased to £18,564. The member returns to work on the following 4th September. The employee is in the main section throughout. CPP1 is therefore accrued as follows:

June – 14 days of Pensionable Pay plus 16 days at the APP rate (annual rate of £18,200)

July to March – APP at the annual rate of £18,200

April to March - APP at the annual rate of £18,200

April to August – APP at the annual rate of £18,564

September – 3 days APP (at the annual rate of £18,564) plus 27 days of pensionable pay

The 50/50 rule

If the member was in the 50/50 section prior to dropping to nil contractual pay because of sickness or injury they should be placed in the main section from the beginning of the next pay period (provided they are still on no pay at that time) and the APP added to CPP1 rather than CPP2 as from the beginning of that pay period.

Example 10

A monthly paid employee drops to reduced contractual pay due to sickness on 15th June then on 15th September they drop to nil pay. They return to normal working on 1st December. At the date of the relevant event they were in the 50/50 section of the Scheme. The CPP accrued throughout is as follows:

June – 14 days of pensionable pay plus 16 days of APP is added to CPP2

July – APP is added to CPP2

Aug – APP is added to CPP2

Sept – APP is added to CPP2

Oct – APP is added to CPP1 (next pay period following the drop to nil pay)

Nov – APP added to CPP1

Dec – PP added to CPP1

Note that the employee remains in the main section unless and until they make another election to return to the 50/50 section.

Exceptions to 50/50 rule for short periods of sickness

The exception to the 50/50 rule above is for short periods of reduction where the employer has a policy of nil pay for the first X days of sickness. In these cases APP is applied in the pay period of reduction even if this is later than the date of the relevant event. Adjustments do not have to be made in arrears. The employee does not have to be placed back in the main section if they have elected for the 50/50 section unless the period of unpaid leave due to sickness or injury crosses two pay periods – for example, if an employer has a policy of nil

pay for the first 3 days of sickness then, if the first 2 days were the last 2 days of one pay period and the third day was the first day of the following pay period, the regulations require the member be put into the main (100/100) section from the beginning of that next pay period.

Example 11

A monthly paid employee is off sick for two days in the middle of June and the employer has a policy of nil pay for the first 3 days of sickness. The adjustment to pay is not done until July when two day's pay are taken from that month's payment. The CPP accrued is as follows:

June – PP is added to CPP2

July – PP (which has been reduced by two days) plus 2 days of APP are added to CPP2

Note that the APP figure is calculated by reference to the pensionable pay the member received in respect of that employment in the 3 complete months' preceding the date on which entitlement to pay at a reduced or zero contractual rate commenced. Thus, even though the deduction from pay for the two days sickness did not occur until July, APP is calculated on the pensionable pay paid in the period March, April and May not April, May and June. It is immaterial whether the notification of the two days sickness is notified to payroll in time for the deduction to be made in the June payroll or the July payroll. In either case, the calculation of the APP figure to be added to CPP2 is the same i.e. based on the pensionable pay the member received in respect of that employment in March, April and May.

Cessation of APP accrual

APP ceases to accrue when a member ceases to be absent on reduced contractual pay or nil pay as a result of sickness or injury; or on ceasing relevant child related leave (i.e. ordinary maternity, paternity or adoption leave or paid shared parental leave and any paid additional maternity or adoption leave); or on ceasing reserve forces service leave.

APP where a member retires with a Tier 1 or Tier 2 ill health pension or dies in service

APP will need to be calculated (by the employer - not held on payroll) when an employer terminates an active member's employment on the grounds of permanent ill-health with a Tier 1 or Tier 2 ill health pension or an active member dies in service, or where a Tier 3 ill health pension is awarded which is subsequently uplifted to a Tier 2 ill health pension. The APP figure is calculated in the normal way but using the average of the pensionable pay for the 12 (weekly) or 3 (monthly) complete pay periods prior to the date of termination / death (including any APP credited in and relating to those pay periods), to which any regular lump sums paid in the 12 months prior to the date of retirement / death which the employer determines there is a 'reasonable expectation' would again have been paid to the member are added back into the annual rate of APP. This APP figure is needed to calculate the amount of the enhancement to the benefits due under the LGPS. Where the Independent Registered Medical Practitioner certifies that the member was working reduced contractual hours during the relevant 12 (weekly) or 3 (monthly) pay periods wholly or partly as a result of the condition that caused or contributed to the ill health retirement, the APP figure is to be calculated on the pay the member would have received during the relevant pay periods if they had not been working reduced contractual hours.

5. Cumulative Contributions

This section is split into sub-sections including cumulative employee contributions (CEC 1 and CEC 2), cumulative employer contributions (CRC), cumulative additional contributions (CAC and CARC).

5.1 Cumulative Employee Contributions (CEC1 & 2)

Employee contributions in the 2014 Scheme are banded as they are in the 2008 Scheme. However, there are more bands than in the 2008 Scheme. In the 2014 Scheme the appropriate band is to be determined by the actual pensionable pay, not the FTE pensionable pay for the employee.

Contribution rates

The bands of contribution rates are as follows for contributions taken in respect of pensionable pay received from 1st April 2014 (but not on pay due prior to that date which is received on or after that date – see [section 8](#)). The employee pays contributions at the appropriate band rate on all pensionable pay received in respect of that job (or at half that rate if the employee is in the 50/50 section). Note that if a person holds more than one employment and these are treated as separate jobs, each job (and the pensionable pay from that job) is assessed separately when determining the contribution rate for each job. Thus, one job could have a rate of 5.8% and the other a rate of 6.5%. Conversely, if the employer determines that a single employment relationship exists (see [section 2](#)) then the pay from each job should be combined to determine the single contribution rate.

2015/16

Band Pensionable pay range for an employment Contribution rate for that employment

| | | |
|---|----------------------|-------|
| 1 | Up to £13,600 | 5.5% |
| 2 | £13,601 to £21,200 | 5.8% |
| 3 | £21,201 to £34,400 | 6.5% |
| 4 | £34,401 to £43,500 | 6.8% |
| 5 | £43,501 to £60,700 | 8.5% |
| 6 | £60,701 to £86,000 | 9.9% |
| 7 | £86,001 to £101,200 | 10.5% |
| 8 | £101,201 to £151,800 | 11.4% |
| 9 | £151,801 or more | 12.5% |

Example 12

An employee commences employment and is placed in band 2 by the employer. The employee will pay 5.8% (or 2.9% if in the 50/50 section) on all pensionable pay received unless and until the payroll is notified of a different appropriate band (or the payroll

automatically moves the employee to a different band in accordance with the policy notified by the employer).

These bands and rates may change from time to time so should not be hard coded into payroll systems. Systems should have the ability to change both the rates, the pay figures in the bands, and the number of bands as required by scheme regulations.

Appropriate bands

Employers will:

- on 1st April 2014 for existing Scheme members, and
- upon commencement of employment for new employees, and
- upon an employee opting into the 2014 Scheme, and
- upon an employee being automatically enrolled or automatically re-enrolled into the 2014 Scheme under the Pensions Act 2008, and
- upon an employee being enrolled following an extension of a contract of employment from less than 3 months to 3 months or more

need to determine the correct band for the employee and notify payroll accordingly (unless the employer has decided to use an automated contribution rate allocation process with the payroll provider). For part time workers, workers on 'zero hours' contracts and workers on variable hours contracts, etc. this will require an assumption to be made of the pensionable pay the person will receive in the Scheme year. Employees will remain in that band unless the employer notifies payroll that the band should be changed (or agrees an automated process with the payroll provider). Employers are required by the regulations to reassess the appropriate band and rate each April (in the pay period in which 1st April falls) and are permitted by the regulations to review the appropriate rate *'where there is a change in employment, or a material change which affects the member's pensionable pay in the course of a financial year'*.

Any reductions in pensionable pay due to sickness, child related leave, reserve forces service leave or other absence from work are to be disregarded when assessing / reviewing the appropriate band and contribution rate.

Example 13

An employee commences part time employment at an FTE rate of £35,000 per annum but is contracted to work 17.5 hours per week in a job where the full time hours are 35. The appropriate band on commencement would normally be band 2 as the employee's actual pay will be £17,500 in the Scheme year.

Example 14

When the same employee completes one Scheme year it is clear that they are regularly working additional hours which brought their actual pensionable pay in the year up to £24,000. The employer may decide to place the employee in band 3 if they consider such hours will continue to be worked.

Example 15

The same employee agrees to go full time part way through the second Scheme year and is issued with a new contract. At that point the employer would determine that the appropriate band is band 4 as the actual pensionable pay will be £35,000 from that point on.

50/50 section contributions

If, at any time, the employee is in the 50/50 section the employee contributions during the period in which they are in that section are calculated using the same bands as above. However the rate for each band is halved. Membership of the 50/50 section does not affect the appropriate band as the amount of pensionable pay does not change. When in the 50/50 section, employee contributions should be added to the CEC2 cumulative and not the CEC1 cumulative. Note that employer contributions are payable at the full employer rate (and not 50% of the normal employer rate).

Example 16

The employee in example 15 opts for the 50/50 section in July and submits the election form after the July payroll has been closed. The contributions in July and August are:

July – PP in period x 6.8% added to CEC1 (and PP in period added to CPP1)

August – PP in period x 3.4% (6.8%/2) added to CEC2 (and PP in period added to CPP2)

Movements between the two sections of the Scheme will take effect from the next available pay period and, therefore, payrolls should not have to split contributions between CEC1 and CEC2 in the same pay period (or split PP between CPP1 and CPP2 in the same pay period).

Contributions during periods of reduced or nil pay

If the employee has a reduction in pay they will continue to pay contributions on the amount of pensionable pay (PP) received (if any) and NOT on any amount of APP being added to the CPP. The only exception to this is in the case of employees on reserve forces service leave. In those cases, the employee pays contributions on APP and not on any pensionable pay received from the Scheme employer. However, the employee contributions on the APP figure are not deducted via the employer's payroll but, instead, they are usually deducted by the MoD from the reservists pay which they pay to the person. The contributions are then paid over to the Pension Fund by the MoD. If the contributions were not deducted from the reservists pay by the MoD, the member would have to pay the contributions direct to the Fund and claim the tax relief from HMRC via self-assessment.

If the employee is in the 50/50 section and goes onto no pay due to sickness or injury, the employee must be moved back into the main section from the beginning of the next pay period if they are still on nil pay at that time. This would even be the case where, for example, an employer has a policy of nil pay for the first 3 days of sickness, and the first 2 days of sickness fall at the end of one pay period and the third day is the first day of the following pay period – in such a situation the employee would have to be put into the main section from the beginning of that next pay period.

Example 17

An employee drops to reduced contractual pay on 15th June due to sickness and then on 15th September they drop to nil pay. They return to normal working on 1st December. At the date of the relevant event they were in the 50/50 section of the Scheme and were in contribution band 4. The contributions calculated and CEC accrued throughout is as follows.

June – PP x 3.4% added to CEC2

July – PP x 3.4% added to CEC2

Aug – PP x 3.4% added to CEC2

Sept – PP (i.e. 14/30 of normal month's pensionable pay) x 3.4% added to CEC2

Oct – PP x 6.8% (= £nil) added to CEC1 (next pay period following drop to nil pay)

Nov – PP x 6.8% (= £nil) added to CEC1

Dec – PP x 6.8% added to CEC1

Note that although pensionable pay dropped to half from 15th June and to no pay from 15th September, the reductions in pensionable pay are ignored when determining the relevant contribution band. Thus, the employee remains in band 4 (6.8%), equating to 3.4% whilst in the 50/50 section. Note also that although, whilst on sick leave, the person was in receipt of PP during the period to 14th September, the PP received during the period 15th June to 14th September is not added into CPP2. Instead, APP accrues during the period of sick leave on reduced contractual pay and no pay and is added into CPP2 for the period 15th June to 30th September and into CPP1 for the period 1st October to 30th November.

KIT days / SPLIT days / Stringer days

When on child related leave the employee may return for KIT days or SPLIT days, or have Stringer days. On these days contributions should be taken on the pay received for that day at the rate appropriate for that pay period.

Example 18

A monthly paid employee goes onto maternity leave from 16th June 2014. The ordinary maternity leave and paid additional maternity leave run out after 39 weeks (i.e. on 15th March 2015). She is in the main section of the Scheme and is paying a contribution rate of 6.8%. She returns for a KIT day in November. PP is accrued on that KIT day is added into CPP1 and APP is not added to CPP1 for that day. The calculations for CEC1 and CPP1 are:

| Month | CEC1 | CPP1 |
|--------------|-----------------------------|--|
| June | PP x 6.8% | 15 days of PP plus 15 days of APP |
| July | PP x 6.8% | APP |
| Aug | PP x 6.8% | APP |
| Sept | PP x 6.8% | APP |
| Oct | PP x 6.8% | APP |
| Nov | PP x 6.8% (KIT day at 6.8%) | One month less one day of APP plus PP on KIT day |
| Dec | PP x 6.8% | APP |
| Jan | PP x 6.8% | APP |
| Feb | PP x 6.8% | APP |
| March | 15 days PP x 6.8% | 15 days APP |
| April | Nil | Nil |

Example 19

For the example above and assuming an unreduced monthly pay figure of £2,976 (£684.89 per week), conditions of service providing 6 weeks at 9/10ths pay, followed by 12 weeks at half pay plus SMP of £136.78 per week, followed by SMP of £136.78 per week for 21 weeks and an APP monthly rate of £2,976 (£684.89 per week i.e. £2,976 x 12/52.143) the amounts allocated to CEC1 and CPP1 cumulatives would be as shown in the following table. Please note that this is one example of the methodology. It is not the only one as we are aware that the methodology adopted by employers to pay SMP varies across employers.

Month CEC1

CPP1

| | | |
|-------|--|--|
| June | $(15/30 \times £2,976) + (2.2 \text{ weeks} \times £684.89 \times 9/10) \times 6.8\%$ = £193.40 | $(15/30 \times £2,976) + (15/30 \times £2,976) = £2,976$ |
| July | $(3.8 \text{ weeks} \times £684.89 \times 9/10) + (0.8 \text{ weeks} \times £684.89 \times 0.5) + (0.8 \text{ weeks} \times £136.78) \times 6.8\% = £185.35$ | £2,976 |
| Aug | $(4.2 \text{ weeks} \times £684.89 \times 0.5) + (4.2 \text{ weeks} \times £136.78) \times 6.8\% = £136.87$ | £2,976 |
| Sept | $(4.4 \text{ weeks} \times £684.89 \times 0.5) + (4.4 \text{ weeks} \times £136.78) \times 6.8\% = £143.38$ | £2,976 |
| Oct | $(2.6 \text{ weeks} \times £684.89 \times 0.5) + (2.6 \text{ weeks} \times £136.78) + (2 \text{ weeks} \times £136.78) \times 6.8\% = £103.33$ | £2,976 |
| Nov | $(3.8 \text{ weeks} \times £136.78) + \text{KIT day } £99.20 \times 6.8\% = £42.09$ | £2,876.80 plus £99.20 KIT day = £2,976 |
| Dec | $(4.6 \text{ weeks} \times £136.78) \times 6.8\% = £42.78$ | £2,976 |
| Jan | $(4.4 \text{ weeks} \times £136.78) \times 6.8\% = £40.92$ | £2,976 |
| Feb | $(4 \text{ weeks} \times £136.78) \times 6.8\% = £37.20$ | £2,976 |
| March | $(2 \text{ weeks} \times £136.78) \times 6.8\% = £18.60$ | $(15/31 \times £2,976) = £1,440$ |
| April | Nil | Nil |

5.2 Cumulative Employer Contributions (CRC)

Employer contributions are not split between the two sections of the Scheme and are based on:

- the actual pensionable pay received by the employee in the pay period or part pay period i.e. the amounts added to CPP1 and CPP2 (not including any APP) except where the bullet point below applies, in which case the employer contributions are payable on the APP figure and not on any pay received whilst APP is in operation. $\text{CRC} = (\text{CPP1}(\text{not including any APP}) + \text{CPP2}(\text{not including any APP})) \times \text{employer contribution rate}$
- the APP figure for the pay period (or part pay period) during which the member is on relevant child related leave (i.e. ordinary maternity, paternity or adoption leave or paid shared parental leave, or paid additional maternity or adoption leave), or on sick leave on reduced contractual or no pay, or on reserve forces service leave. Note, however, that during reserve forces service leave the Scheme employer does not directly pay employer contributions on the APP (and so there is no employer contribution to deduct via the payroll). Instead, the employer contributions on the APP figure are remitted by the MoD direct to the Pension Fund. $\text{CRC} = (\text{CPP1}(\text{i.e. APP}) + \text{CPP2}(\text{i.e. APP})) \times \text{employer contribution rate}$

The employer contribution rate will be a single rate for all employees of that employer and will be subject to change possibly annually but almost certainly after each triennial valuation of the Pension Fund. Rates should therefore not be hard coded into payroll systems. Employers will be responsible for notifying payrolls of the employer contribution rate and any subsequent changes to it. If the employee is in the 50/50 section, the employer rate is still paid in full (not at half rate).

5.3 Cumulative Additional Contributions (CAC, CARC) – per job

Additional Pension Contributions (APC)

Additional Pension Contributions can be made by both or either the employee and the employer. The cost of an APC can be met in full by the employee, or in full by the employer, or may be split between employee and employer (in any proportion agreed between the employee and the employer, but not 100% cost to the employer). Where an employer and employee both contribute this is known as a shared cost APC (SCAPC). APC / SCAPC contributions may be one off or regular and will always be cash amounts not percentages. If the contributions are regular the employer will notify the payroll of the employee amount to be deducted per pay period, and the employer amount (if any) to be paid per pay period, and the number of payments in the APC contract. If the employee has more than one pensionable employment, the notification must also specify the employment to which the APC contract is to be attached.

Example 20

Payroll is notified that an employee has elected to pay a one off APC of £500. This amount should be deducted in the pay period following notification and £500 added to the EAPC CAC cumulative for that job for that scheme year.

Example 21

Payroll is notified that an employee has elected to pay an APC of £50 per month for the next 60 pay periods. This deduction should commence in the pay period following notification and £50 added each month in the scheme year to the EAPC CAC cumulative for that job.

Employers may agree to share the cost of APC contracts either on a one off or regular basis. Except for SCAPC contracts taken out to cover the pension “lost” during a period of unpaid leave of absence (including any period of unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave following a period of relevant child related leave i.e. following a period of ordinary maternity, paternity or adoption leave or paid shared parental leave and any paid additional maternity or adoption leave but excluding any period of unpaid absence due to industrial action) the employer share can vary across employees but the combined amount in respect of any individual employee will be consistent throughout the contract. Where a SCAPC contract is taken out to cover the pension “lost” during a period of unpaid leave of absence, the cost is, for any individual period of absence up to 36 months, shared 1/3rd employee, 2/3rds employer. The cost of purchasing “lost” pension for a period of absence beyond 36 months will be at full cost to the employee, unless the employer chooses to contribute towards the cost.

Example 22

Payroll is notified that the employer has agreed to share equally with the employee a one off APC of £500. The employee’s £250 should be deducted in the pay period following notification with £250 added to the EAPC CAC and £250 added to the RAPC CARC cumulatives for that job.

Example 23

Payroll is notified that an employer has agreed to share equally with the employee an APC of £50 per month for the next 60 pay periods. The employee's deduction of £25 should commence in the pay period following notification and £25 added each month in the scheme year to each of the EAPC CAC and RAPC CARC cumulatives for that job.

Note that:

- during any period of sickness or injury on reduced contractual pay, any pre-existing APC / SCAPC contracts remain payable (unless the member elects to end the contract). The payments need to be added to the EAPC CAC and, as appropriate, the RAPC CARC cumulative for that job. If the employee is in receipt of no pay the employee contributions to an APC / SCAPC are deemed to have been paid but the deemed contributions are not to be added into the EAPC CAC cumulative for that job, and the employer contributions to an APC / SCAPC should always be collected and added into the RAPC CARC cumulative for that job
- during any period of relevant child related leave (ordinary maternity, paternity or adoption leave or paid shared parental leave and paid additional maternity or adoption leave) any pre-existing APC / SCAPC contracts remain payable (unless the member elects to end the contract) and the payments need to be added to the EAPC CAC and, as appropriate, the RAPC CARC cumulative for that job. If the employee is in receipt of no pay, the employer contributions to a SCAPC remain payable and should be added to the RAPC CARC cumulative for that job but the employee payments due to an APC or SCAPC which could not be collected roll over as a debt to be recovered from pay upon return to work (when they will be added into the EAPC CAC cumulative for that job) or, failing that, by direct payment by the individual to the administering authority / deduction from pension benefits when paid)
- during any other period of child related leave (i.e. during unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave) any pre-existing APC / SCAPC contracts remain payable (unless the member elects to end the contract). Although the employee is in receipt of no pay, the employer contributions to a SCAPC remain payable and should be added to the RAPC CARC cumulative for that job but the employee payments that were due to an APC or SCPAC which could not be collected roll over as a debt to be recovered from pay upon return to work (when they will be added into the EAPC CAC cumulative for that job) or, failing that, by direct payment by the individual to the administering authority / deduction from pension benefits when paid)
- during any period of absence due to a trade dispute or a period of unpaid unauthorised absence any pre-existing APC / SCAPC contracts remain payable (unless the member elects to end the contract). Although the employee is in receipt of no pay for the period of the trade dispute, the employer contributions to a SCAPC remain payable and should be added to the RAPC CARC cumulative for that job. The employee payments that were due to an APC or SCAPC should be deducted and added to the relevant EAPC CAC cumulative for that job if there is enough pay in the period from which to deduct the payment. Otherwise, the employee payment that was due to an APC or SCAPC will roll over as a debt to be recovered from pay upon return to work (when they will be added into the EAPC CAC cumulative for that job) or, failing that, by direct payment by the individual to the administering authority / deduction from pension benefits when paid)
- during any period of reserve forces service leave any pre-existing APC / SCAPC contracts remain payable (unless the member elects to end the contract) but (other than

the employer contributions to a SCAPC) not via payroll. The employer sends the relevant details to the reservist to pass on to MoD in order to get them to arrange the relevant APC deductions from MoD reservist pay and for MoD to pay these over to the LGPS Fund.

- during any other period of authorised leave of absence any pre-existing APC / SCAPC contracts remain payable (unless the member elects to end the contract). Although the employee may be in receipt of no pay, the employer contributions to a SCAPC remain payable and should be added to the RAPC CARC cumulative for that job but any of the employee payments that were due to an APC or SCPAC which could not be collected roll over as a debt to be recovered from pay upon return to work (when they will be added into the EAPC CAC cumulative for that job) or, failing that, by direct payment by the individual to the administering authority / deduction from pension benefits when paid)

Additional Voluntary Contributions (AVC)

Additional Voluntary Contributions can be made by the employee or, in the case of a shared cost AVC (SCAVC), by both the employer and employee. Such contributions will be either a cash amount or a percentage of pensionable pay. The employer will notify the payroll of the employee amount or percentage to be deducted per pay period and, in the case of a SCAVC, the employer amount or percentage to be paid per pay period.

The split between an employee's and employer's additional contributions for an SCAVC can be any ratio as agreed but not 100% cost to the employer.

Unlike in the 2008 Scheme the 2014 Scheme does not limit an employee's AVC contributions to 50% of pay (where the AVC contract is entered into after 31st March 2014 – and see [section 6.4](#) for contracts entered into before 1st April 2014).

Example 24

Payroll is notified that an employee has elected to pay an ongoing (life assurance) AVC of £100 per month. This amount should be deducted commencing in the pay period following notification and £100 added to the EAVC CAC cumulative each month in the scheme year for that job.

Example 25

Payroll is notified that an employee has elected to pay an ongoing (non-life assurance) AVC of 5% of pay per month. This deduction should commence in the pay period following notification and the amount of AVC collected each month added to the EAVC CAC cumulative in the scheme year for that job.

Employers may agree to share the cost of an AVC contract. This share can vary across employees but the proportion for any individual employee will not vary.

Example 26

Payroll is notified that the employer has agreed to a shared cost (non-life assurance) AVC with an employee, with the employee contributing £60 per month and the employer contributing £40 per month. The AVC deduction should commence in the pay period following notification with the contributions from the employee's £60 per month deduction added to the EAVC CAC and the amount from the employer's £40 per month contribution added to the RAVC CARC cumulatives each month in the scheme year for that job.

Example 27

Payroll is notified that the employer has agreed to a shared cost (non-life assurance) AVC with an employee, with the employee contributing 3% of pay per month and the employer contributing 2% of pay per month. The AVC deduction should commence in the pay period following notification with the contributions from the employee's 3% deduction added to the EAVC CAC and the amount from the employer's 2% contribution added to the RAVC CARC cumulatives each month in the scheme year for that job.

Note that:

- during any period of sickness on reduced contractual pay or no pay, any pre-existing AVC / SCAVC contracts entered into after 31st March 2014 remain payable only whilst there is enough pay to cover them (unless the member, or the employer in the case of a SCAVC, elects to end the contract). The payments need to be added to the EAVC CAC and, as appropriate, RAVC CARC cumulatives for that job. No AVC / SCAVC contributions are payable whilst the employee is on no pay and nothing is to be added to the EAVC CAC or, as appropriate, RAVC CARC cumulatives for that job whilst the employee is on no pay. Note that the employer element of SCAVC in respect of pension sacrifice is not payable in full where the employee is on reduced or no pay i.e. during the half pay period the employer contribution is half and during the no pay period the employer makes no contribution – this is the line taken by Northumberland CC who are the only authority we are aware of that currently has a SCAVC in respect of pension sacrifice.
- during any period of relevant child related leave (ordinary maternity, paternity or adoption leave or paid shared parental leave and paid additional maternity or adoption leave) any pre-existing AVCs / SCAVC contracts entered into after 31st March 2014 remain payable (unless the member, or the employer in the case of a SCAVC, elects to end the contract) whilst there is enough pay to cover them. The payments made need to be added to the EAVC CAC and, as appropriate, RAVC CARC cumulatives for that job. Note that the employer element of SCAVC in respect of pension sacrifice must continue to be paid in full on APP or, for any days during the relevant child related leave period where pay received is greater than APP, on the pay received and added to the RAVC CARC cumulative for that job.
- during any other period of child related leave (i.e. during unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave) the member may elect to continue with any pre-existing AVC / SCAVC entered into after 31st March 2014 and, if the member does so, the employer must meet cost of the employer element of any SCAVC. However, in reality this is not an option on the payroll as there is no pay from which to collect AVCs / SCAVCs.
- during any period of absence due to a trade dispute the member may elect to continue with any pre-existing AVC / SCAVC contracts entered into after 31st March 2014 and, if the member does so, the employer must meet cost of the employer element of any SCAVC. The employer contributions to a SCAVC should be added to the RAVC CARC cumulative for that job and the employee contributions to the AVC or SCAVC should be added to the EAVC CAC cumulative for that job.
- during any period of reserve forces service leave any pre-existing AVCs / SCAVC contracts entered into after 31st March 2014 remain payable (unless the member, or the employer in the case of a SCAVC, elects to end the contract) but (other than the employer contributions to a SCAVC) not via payroll. The employer sends the relevant details to the reservist to pass on to MoD in order to get them to arrange the relevant AVC deductions from MoD reservist pay and for MoD to pay these over to the AVC provider.

- during any other period of authorised leave of absence the member may elect to continue with any pre-existing AVC / SCAVC contracts entered into after 31st March 2014 and, if the member does so, the employer must meet cost of the employer element of any SCAVC. However, in reality this is not an option on the payroll as there is no pay from which to collect AVCs / SCAVCs.

See section 6.4 for AVC / SCAVC contracts entered into before 1st April 2014.

6. 2008 Scheme Data

This section deals with the data requirements for Scheme members who have pre 2014 benefits. It contains information on final pay, part time hours, breaks in membership and existing additional pension contracts.

6.1 Final Pay

Employers will still be responsible for calculating and providing to the Pension Fund administering authority:

a) Final Pay (2008 Scheme definition) at each 31st March, and on ceasing membership of the Scheme (opting out, or termination of pensionable employment, or attaining age 75), for use in calculating pre 2014 benefits, and

b) Final Pay at Normal Pension Age (NPA) (2008 Scheme definition – normally age 65) or at the date of cessation of active membership, if earlier, to enable the Pension Fund administering authority to calculate the underpin on the post 31st March 2014 benefits for those members to whom the underpin calculation applies. The underpin applies has to be calculated for those who:

- were active members on 31st March 2012,
- were within 10 years of their NPA on 1st April 2012,
- have not (after 31st March 2012) had a continuous break of more than 5 years in membership of a public service pension scheme,
- have not already drawn any benefits from the 2014 Scheme in relation to the employment (e.g. upon flexible retirement), and
- have either ceased to be an active member before NPA (2008 Scheme definition) or are still an active member at NPA (2008 Scheme definition).

The final pay figure (2008 Scheme definition) for the underpin is the pay due for, normally, the 12 months preceding the date of cessation or NPA, whichever is the earlier. (NB: the underpin is calculated at NPA for those who continue working beyond NPA).

It should be noted that for the purposes of (a) and (b) above, if the employee elects to cover the whole of the amount of any pension 'lost' during a period of absence due to a trade dispute, authorised unpaid leave of absence or unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave by the payment of contributions under an Additional Pension Contribution (APC) contract or shared cost APC contract, in calculating

the final pay for the employee, the employee must be treated as having received the pay they would otherwise have received but for the absence. If, however, the employee does not make such an election, or has a period of unauthorised unpaid leave of absence, the final pay (if the absence falls in the final pay period – usually the last 12 months) will be the pay received during that final pay period divided by the number of paid days in that period multiplied by 365.

It should also be noted that, where a Scheme member is subject to a reduction or restriction in pay, regulations 8 and 10 of the LGPS (Benefits, Membership and Contributions) Regulations 2007 continue to apply for the purposes of the final pay calculation for (a) and (b) above regardless of whether the reduction or restriction in pay occurs before, on or after 1 April 2014.

6.2 Changes in Contractual Part Time Hours and / or Contractual Weeks/Contractual Days per year

For part time employees with LGPS membership prior to 1st April 2014 employers will still be required to notify Pension Fund administering authorities of changes in contractual hours (or the average hours for the Scheme year for employees who have no contractual hours) in respect of:

- members to whom the underpin calculation applies (see [section 6.1\(b\)](#)) where the change occurs prior to NPA (2008 Scheme definition – normally age 65) so that the underpin calculation can be accurately performed,
- members who have an added years contract (as the added years contract has to be adjusted upon a change in contractual hours), and
- members covered by regulation 20(13) of the LGPS (Benefits, Membership and Contributions) Regulations 2007 (minimum ill health enhancement for those who were active members before 1st April 2008, were aged 45 or over at that time, have been in continuous membership since then, and have not already received any benefits in respect of that membership) as a change in contractual hours can affect the level of the minimum ill health enhancement.

For employees with LGPS membership prior to 1st April 2014 employers will still be required to notify Pension Fund administering authorities of any changes in contractual weeks / contractual days per year (if the administering authority prorates the membership of employees whose contractual weeks / contractual days per year are less than 52 per annum / 365 per year) but only for:

- members to whom the underpin calculation applies where the change occurs prior to NPA (2008 Scheme definition – normally age 65) so that the underpin calculation can be accurately performed,
- members who have an added years contract, and
- members covered by regulation 20(13) of the LGPS (Benefits, Membership and Contributions) Regulations 2007 (minimum ill health enhancement for those who were active members before 1st April 2008, were aged 45 or over at that time, have been in continuous membership since then, and have not already received any benefits in

respect of that membership) as a change in contractual weeks can affect the level of the minimum ill health enhancement.

For all employees covered by either of the paragraphs above, employers will need to provide, at each 31st March, the relevant changes that have occurred during the Scheme year (as the information is required by the Pension Fund administering authority to calculate the member's benefits for the purposes of the Annual Benefits Statement and the annual allowance) and provide, at the date of leaving, the changes that have occurred during the Scheme year in which the date of leaving falls.

6.3 Breaks in membership

Employers will still be responsible for providing details to the Pension Fund administering authority of breaks in "membership" that occur prior to Normal Pension Age (NPA) (2008 Scheme definition) due to:

- a trade dispute, or
- authorised unpaid leave of absence,
- unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave, or
- unauthorised unpaid absence

but only for those members:

- to whom the underpin calculation applies, or
- to whom the 85 year rule applies

and who have not taken out an Additional Pension Contribution (APC) contract to cover the whole of the pension that would have accrued during the trade dispute period, or taken out an APC or Shared Cost APC contract to cover the whole of the pension that would have accrued during the period of unpaid leave of absence (with compulsory employer contributions to a Shared Cost APC being limited to cover a maximum period of 36 months) or period of unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave. Note that unauthorised unpaid absences will always constitute a break as there is no facility to pay an APC specifically to cover the whole of the pension that would have accrued during such a period of absence.

Notification of service breaks are required in order that the Pension Fund administering authority can determine:

- whether the final salary benefit underpin for members subject to the underpin exceeds their post 31st March 2014 CARE pension, and
- when the member meets the 85 year rule (as a break can potentially put back to a later date the date when the 85 year rule is achieved).

6.4 Existing additional pension contracts

Existing Additional Voluntary Contribution (AVC), shared cost Additional Voluntary Contribution (SCAVC), Additional Regular Contribution (ARC), Preston part-time buy-back, added years, and Additional Survivor Benefit Contributions (ASBC) contracts in force immediately prior to 1st April 2014 will continue.

It should be noted that if a member paying additional contributions under such contracts moves to the 50/50 section of the Scheme, the additional contributions under such contracts remain payable in full and are not reduced to half rate.

Additional Voluntary Contributions

Contributions made by an employee to an AVC or, in the case of a shared cost AVC (SCAVC), made by both the employer and employee, continue to be payable in respect of a contract taken out before 1st April 2014 (unless the employee, or the employer in the case of a SCAVC, elects to end the contract). Such contributions will be either a cash amount or a percentage of pensionable pay, payable per pay period and, unlike a contract entered into after 31st March 2014, employee contributions to AVC contracts entered into before 1st April 2014 are limited to 50% of the employee's pensionable pay (as defined under the 2008 Scheme). Where a member is paying a percentage of their pensionable pay towards their AVC and the contract was taken out before 1st April 2014 the amount deducted from their pay in each pay period will be based on their pensionable pay (as defined under the 2008 scheme) in that pay period.

It should be noted that during any period of:

- sickness on reduced contractual pay or no pay, or
- relevant child related leave (ordinary maternity, adoption or paternity leave or paid shared parental leave, plus paid additional maternity or adoption leave), plus unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave, or
- reserve forces service leave, or
- absence due to a trade dispute, or
- jury service on reduced or no pay, or
- any other period of authorised leave of absence, or
- any period of unpaid unauthorised absence

the employee can continue with any pre-existing AVC / SCAVC contract entered into before 1st April 2014 (or can elect to cease the contract). If the member continues with the contract, and is paying AVCs for additional life assurance cover, they will have to make arrangements to continue to pay the life assurance AVCs during any period when there is not enough pay to cover them if they wish to ensure their AVC life assurance cover does not lapse.

Additional Regular Contributions (ARCs)

Contributions under existing ARC contracts entered into before 1st April 2014 continue to be payable (but the member can elect to cease the contract). Payments under these contracts are flat sums payable per pay period (not percentages of pensionable pay).

It should be noted that during any period of:

- relevant child related leave (ordinary maternity, adoption or paternity leave or paid shared parental leave, plus paid additional maternity or adoption leave), plus unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave, or
- reserve forces service leave where the reserve forces pay is equal to or greater than the pay that would have been paid had the member continued to be employed by the Scheme employer, or
- absence due to a trade dispute, or
- jury service on reduced or no pay, or
- any other period of authorised leave of absence, or
 - any period of unpaid unauthorised absence

the employee must continue to pay contributions under any pre-existing ARC contract entered into before 1st April 2014 (unless the employee elects to end the contract).

During any period of absence due to sickness on full or reduced pay the member will continue to pay the contributions under the ARC contract on the pay received. They do not pay contributions under the ARC contract during a period of sick leave on no pay.

During any period of reserve forces service leave where the reserve forces pay is less than the pay that would have been paid had the member continued to be employed by the Scheme employer, the employee is not required to pay contributions under the ARC contract (the contributions are deemed to have been paid).

No new ARC contracts can be taken out after 31st March 2014 (but the member can take out an Additional Pension Contributions contract).

Added years contracts

Existing contracts entered into by members who elected before 1st April 2008 to purchase added years of membership continue in force (unless the member elects to cease the contract). Payments under these contracts are expressed as a percentage of the member's pensionable pay (2008 Scheme definition of pensionable pay). The contributions should only be deducted on the 2008 Scheme definition of pensionable pay i.e. excluding any pay that is pensionable in the 2014 Scheme but which was not pensionable in the 2008 Scheme – such as non-contractual overtime.

It should be noted that during any period of:

- relevant child related leave (ordinary maternity, adoption or paternity leave or paid shared parental leave, plus paid additional maternity or adoption leave), plus unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave, or
- reserve forces service leave where the reserve forces pay is equal to or greater than the pay that would have been paid had the member continued to be employed by the Scheme employer, or
- absence due to a trade dispute, or
- jury service on reduced or no pay, or
- any other period of authorised leave of absence, or
- any period of unpaid unauthorised absence

the employee must continue to pay contributions under any pre-existing added years contract entered into before 1st April 2008 (unless the employee elects to end the contract).

During any period of absence due to sickness on full or reduced pay the member will continue to pay the contributions under the added years contract on the pay received. They do not pay contributions under the added years contract during a period of sick leave on no pay.

During any period of reserve forces service leave where the reserve forces pay is less than the pay that would have been paid had the member continued to be employed by the Scheme employer, the employee is not required to pay contributions under the added years contract (the contributions are deemed to have been paid).

Preston part-time buy-back contracts

Any existing (Preston) part-time buy-back contracts continue to be payable and, where any new cases that are conceded by the employer, the scheme member can enter into a new contract to buy-back the part-time membership. Payments under these contracts are flat sums payable per pay period (not percentages of pensionable pay).

It should be noted that during any period of:

- sickness on reduced contractual pay or no pay, or
- relevant child related leave (ordinary maternity, adoption or paternity leave or paid shared parental leave, plus paid additional maternity or adoption leave), plus unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave, or
- reserve forces service leave, or
- absence due to a trade dispute, or
- jury service on reduced or no pay, or
- any other period of authorised leave of absence, or
- any period of unpaid unauthorised absence

the employee must continue to pay contributions under any Preston part-time buy-back contract.

Additional Survivor Benefit Contributions (ASBCs) for cohabitee survivor's pension

Any existing ASBC contracts continue to be paid (unless the employee elects to end the contract). Members who have not entered into an ASBC contract for all or part of their pre 6th April 1988 membership to count for a cohabitee survivor's pension will not be able to enter into a contract to achieve this after 31st March 2014. Payments under existing ASBC contracts at 31st March 2014 are expressed as a percentage of the member's full time equivalent pensionable pay (2008 Scheme definition of pensionable pay). The contributions should only be deducted on the 2008 Scheme definition of pensionable pay i.e. excluding any pay that is pensionable in the 2014 Scheme but which was not pensionable in the 2008 Scheme – such as non-contractual overtime).

It should be noted that during any period of:

- relevant child related leave (ordinary maternity, adoption or paternity leave or paid shared parental leave, plus paid additional maternity or adoption leave), plus unpaid additional maternity, paternity or adoption leave or unpaid shared parental leave, or
- reserve forces service leave where the reserve forces pay is equal to or greater than the pay that would have been paid had the member continued to be employed by the Scheme employer, or

- absence due to a trade dispute, or
- jury service on reduced or no pay, or
- any other period of authorised leave of absence, or
- any period of unpaid unauthorised absence

the employee must continue to pay contributions under any pre-existing ASBC contract entered into before 1st April 2014 (unless the employee elects to end the contract).

During any period of absence due to sickness or injury on full or reduced pay the member will continue to pay the contributions under the ASBC contract on the pay received. They do not pay contributions under the ASBC contract during a period of sick leave on no pay.

During any period of reserve forces service leave where the reserve forces pay is less than the pay that would have been paid had the member continued to be employed by the Scheme employer, the employee is not required to pay contributions under the ASBC contract (the contributions are deemed to have been paid).

7. Payments in respect of a period prior to 1st April 2014 which are made after 31st March 2014

Where a payment is made after 31st March 2014 that relates to a period prior to 1st April 2014 the employee contribution rate under the 2008 Scheme should be applied to that pay. It is acceptable for the employer contribution rate applicable at the time of payment to be applied to the pre (and post) 2014 pensionable pay. Note, however, that the pensionable pay for the pre 2014 element should be based on the 2008 Scheme definition of pensionable pay (e.g. excluding non-contractual overtime) and not the 2014 Scheme definition of pensionable pay (which would, for example, include non-contractual overtime).

Note that any pensionable pay received after 31st March 2014 which relates to a period prior to 1st April 2014 should not be included in CPP1 or CPP2.

8. Absences spanning 31st March 2014 / 1st April 2014

Where an absence spans 31st March 2014 and 1st April 2014 the absence prior to 1st April 2014 should be dealt with in accordance with the 2008 Scheme rules (see the paragraphs below) and the absence post 31st March 2014 should be dealt with in accordance with the 2014 Scheme rules (see [section 5.3](#)).

2008 Scheme – rules for absences before 1st April 2014

Authorised unpaid leave of absence

For any period of authorised unpaid leave of absence falling before 1st April 2014, employee and employer pension contributions must be paid for the first 30 days of absence (or up to 31st March 2014 if the 30 day period extends beyond that date). The contributions are payable on the pay the person would have received but for the absence. Where the

absence extends beyond 30 days the employee may elect, within 30 days of returning to work (or within 30 days of leaving if the employee does not return) or such longer period as the employer may allow. to pay contributions for the remainder of that part of the absence that falls before 1st April 2014 (subject to a maximum absence period of three years). Those contributions would, just like the contributions due for the first 30 days of absence, be based on the pay the person would have received but for the absence. If they make such an election the employer must also pay contributions on that amount of pay. Where contributions are paid, the period counts as pre 2014 membership.

Unauthorised unpaid absence

Any absence falling before 1st April 2014 which is unauthorised by the employer and for which the employee receives no pay does not count as membership and contributions cannot be deducted in respect of the absence, whatever the length.

Jury Service

Jury service is a special type of absence. Employee and employer pension contributions are mandatory for the whole of any jury service falling before 1st April 2014 (and not just the first 30 days) and are based on the pay the person would have received but for the absence.

Trade dispute

Absence due to a trade dispute is treated, initially, the same as unauthorised absence, inasmuch as no pension contributions are payable and the membership does not count. However, the employee may elect within 30 days of returning to work (or within 30 days of leaving if the employee does not return) or such longer period as the employer may allow. to make a payment, if they so wish, in respect of that part of the absence falling before 1st April 2014. The payment is the equivalent of 16% of the "lost" pay falling before that date and, if paid, entitles the member to count the period of absence due to a trade dispute prior to 1st April 2014 as membership. No employer contributions are due for that period.

Child-related leave

During any period of ordinary maternity, paternity or adoption leave and during any **paid** additional maternity, paternity or adoption leave falling before 1st April 2014 an employee **must** continue to pay pension contributions on the actual pay, if any, they are receiving. Benefits will continue to accrue as if they were working normally on full pay. The employer pension contributions are payable on notional full pay.

The employee can elect within 30 days of returning to work (or within 30 days of leaving if the employee does not return) or such longer period as the employer may allow. to pay pension contributions for any period of unpaid additional maternity, paternity or adoption leave falling before 1st April 2014 so that the period of absence will count in full for pension purposes. The contributions will be calculated on the rate of pay (or reduced pay) that they were entitled to receive immediately before they commenced the period of unpaid leave. If they elect to pay contributions for this period, the employer will pay contributions on the employee's notional full pay for that period.

Reserve forces service leave

During any period of reserve forces service leave falling before 1st April 2014 the employee will continue to accrue membership but will only have to pay pension contributions on their reserve forces pay if it equals or exceeds their normal pay for that period; otherwise, no employee contributions are due from their reserve forces pay. The Ministry of Defence will be responsible for employer contributions during that period of time.

Additional contributions

The rules governing the payment of contributions under various types of added years, additional pension and AVC contracts that were entered into before 1st April 2014 are set out in section 6.4.

9. Monthly payover of contributions

Employers participating in the Scheme are required to pay over to the appropriate Pension Fund all contributions paid by employees (both basic contributions and employee contributions to an APC or SCAPC). The amount must be paid over as shown below:

a) if the employee is enrolled (or re-enrolled) into the LGPS under the provisions of the Pensions Act 2008, the employee contributions deducted from pay in the first three months have to be paid over

- where the payment is by means of an electronic communication, by no later than 22 days from the end of the month falling three months from the date the employee became a member of the Scheme, or
- if payment is made by any other means, by no later than 19 days from the end of the month falling three months from the date the employee became a member of the Scheme

OR

b) if in any other case (e.g. where the employee is contractually enrolled into the LGPS, or for contributions deducted from pay more than three months after being enrolled or re-enrolled under the provisions of the Pensions Act 2008), the employee contributions deducted from pay have had to be paid over

- where the payment is by means of an electronic communication, by no later than 22 days after the end of the month in which the contributions were deducted from pay; or
- in any other case, by no later than 19 days after the end of the month in which the contributions were deducted from pay

OR

c) any such earlier time as the Pension Fund administering authority may stipulate.

The payment must be accompanied by a statement, in such form as the appropriate Pension Fund administering authority specifies, showing:

- a. the total pensionable pay (CPP1) received by members whilst they were in the main section of the Scheme during the period covered by the statement (including the assumed pensionable pay members were treated as receiving during that period)
- b. the total employee contributions (CEC1) deducted from the pensionable pay referred to in (a)

- c. the total pensionable pay (CPP2) received by members whilst they were in the 50/50 section of the Scheme during the period covered by the statement (including the assumed pensionable pay members were treated as receiving during that period),
- d. the total employee contributions (CEC2) deducted from the pensionable pay referred to in (c)
- e. the total employer contributions (CRC) in respect of the pensionable pay referred to in (a) and (c)
- f. the total Additional Pension Contributions (EAPC CAC) paid by members during the period covered by the statement, and
- g. the total Additional Pension Contributions (RAPC CARC) paid by the employer during the period covered by the statement.

Employers participating in the Scheme are required to pay over to the appropriate Pension Fund all contributions paid by employers (both basic contributions and the employer contributions to a SCAPC). The employer contributions must be paid over to the appropriate Pension Fund on or before such dates falling at intervals of not more than 12 months as the Pension Fund administering authority may specify. It is common practice for the employer contributions to be paid over to the appropriate Pension Fund at the same time as the employee contributions.

It should be noted that:

- i. employee and employer pension contributions and AVCs / SCAVCs collected on pay paid after 31st March 2014 which was due in respect of a period prior to 1st April 2014 (see [section 7](#)), and
- ii. contributions for added years, Preston part-time buy-back, ARCs and ASBCs (see [section 6.4](#))

must also be paid over to the Pension Fund within the timescales mentioned above.

The payments in respect of (i) must be accompanied by a statement, in such form as the appropriate Pension Fund administering authority specifies, showing:

- a. the name, pay and contribution band of each employee from whose pay such employee pension contributions or contributions to an AVC or SCAVC have been deducted,
- b. which of those employees have paid AVCs or SCAVCs,
- c. the amounts of pension contributions deducted from each employee per pay band and the period covered by the deductions, and
- d. the amount of employee contributions to an AVC or SCAVC, per employee, and the period covered by the deductions.

The payments in respect of (ii) should be accompanied by a statement, in such form as the appropriate Pension Fund administering authority specifies.

There are other payments that employers may have to pay to the Pension Fund (but these are unlikely to impact on payroll) – see [section 18](#) of the HR guide.

10. End of year template report

Within 3 months of each Scheme year end, each Scheme employer must send to the appropriate administering authority a statement showing, for each employment of each of the Scheme employer's employees who have been active members of the Fund during the Scheme year—

| Information for each employment | Format |
|--|---------------------------------|
| Scheme year ending | Date format |
| Surname | Alphanumeric |
| Forename (or initials) | Alphanumeric |
| Gender | Alphanumeric (M or F) |
| Date of birth | Date format |
| National insurance number | Alphanumeric (No TN numbers) |
| Unique ID for the employment | Alphanumeric |
| Date became an active member of the Scheme in the employment if this was during the Scheme year* | Date format |
| Date ceased active membership of the Scheme in the employment if this was during the Scheme year* | Date format |
| CPP1: Cumulative pensionable pay received in the employment during the Scheme year whilst in main section (including the Assumed Pensionable Pay the member was treated as receiving during the Scheme year whilst in the main section and the value of emoluments specified in the contract of employment as being pensionable emoluments whilst in the main section, including the pensionable emolument value of salary sacrificed for such items as child care vouchers, and for pension contribution salary sacrifice via a shared cost AVC arrangement) | Number to 2 decimal places |
| CEC1: Cumulative employee contributions (if any) deducted from pensionable pay in previous field | Number to 2 decimal places |
| CPP2: Cumulative pensionable pay received in the employment during the Scheme year whilst in 50/50 section (including the assumed pensionable pay the member was treated as receiving during the Scheme year whilst in the 50/50 section and the value of emoluments specified in the contract of employment as being pensionable emoluments whilst in the 50/50 section, including the pensionable emolument value of salary sacrificed for such items as child care vouchers, and for pension contribution salary sacrifice via a shared cost AVC arrangement) | Number to 2 decimal places |
| CEC2: Cumulative employee contributions (if any) deducted from pensionable pay in previous field | Number to 2 decimal places |
| Section of the Scheme the employee was a member of in the employment at the end of the Scheme year (or at the date of cessation of active membership in the employment if on or after the start of the Scheme year | Alphanumeric |

| | |
|---|----------------------------|
| and before the end of the Scheme year)** | |
| CRC: Cumulative employer contributions deducted from pensionable pay in respect of the employment (including the assumed pensionable pay the member was treated as receiving during the Scheme year and the value of emoluments specified in the contract of employment as being pensionable emoluments, including the pensionable emolument value of salary sacrificed for such items as child care vouchers, and for pension contribution salary sacrifice via a shared cost AVC arrangement) | Number to 2 decimal places |
| EAPC CAC: Cumulative additional pension contributions (APCs), if any, paid in respect of the employment by the employee | Number to 2 decimal places |
| RAPC CARC: Cumulative additional pension contributions (APCs), if any, paid in respect of the employment by the employer | Number to 2 decimal places |
| EAVC CAC: Cumulative additional voluntary contributions (AVCs), if any, paid in respect of the employment by the employee | Number to 2 decimal places |
| RAVC CARC: Cumulative additional voluntary contributions (AVCs), if any, paid in respect of the employment by the employer | Number to 2 decimal places |
| For employees with membership of the LGPS prior to 1/4/14 who are active members at the end of the Scheme year | |
| FTE Final pay for the Scheme year | Number to 2 decimal places |

*Regulation 80(4)(a) of the LGPS Regulations 2013 states that the employer must provide the 'dates of active membership' for the Scheme year. A strict interpretation of that regulation would mean that the employer would have to provide the dates of active membership during the Scheme year being:

- the date of the beginning of the Scheme year , or
- the date the employee became an active member of the Scheme in the employment during the Scheme year (if later)

plus

- the date of the end of the Scheme year, or
- the date the employee ceased to be an active member of the Scheme in the employment during the Scheme year (if earlier)

However, at a practical level, the LGPC Secretariat think that administering authorities will only require the two items listed in the table above to be provided, i.e. date joined the Scheme in that employment if this was during the Scheme year (including those who joined the Scheme on 1st April) and the date ceased active membership in that employment if that was during the Scheme year (including those who ceased on 31st March). If, in an employment, the employee was an active member at the beginning of the Scheme year, the first of the fields mentioned above could be left blank (unless the employee joined the Scheme in that employment on 1st April) and, if the member was an active member in the employment at the end of the Scheme year, the second of the fields mentioned above could be left blank (unless the employee ceased active membership in that employment on 31st March). A statement could accompany the report stating that where a field is blank it signifies that the employee was an active member on that date. The reason administering authorities will require the date joined the Scheme in the employment if this was during the

Scheme year (including those who joined the Scheme on 1st April) and the date ceased active membership in the employment if that was during the Scheme year (including those who ceased on 31st March) is to ensure records are correct and up to date and to identify where notification of new joiners or leavers has not been received. We do not think funds require dates for every Scheme member if they have been in the Scheme for the whole Scheme year (i.e. 1st April through to 31st March).

**The LGPC Secretariat believe that this information should be provided to the Pension Fund administering authority as it is required to ensure the member's pension record is correct and up to date and because the information may be needed to produce projections for Annual Benefit Statements.

11. Glossary of acronyms

| |
|--|
| APC: Additional Pension Contributions (paid by scheme member) |
| APP: Assumed Pensionable Pay |
| ARC: Additional Regular Contributions (paid by scheme member) |
| ASBC: Additional Survivor Benefit Contributions (paid by scheme member) |
| AVC: Additional Voluntary Contributions (paid by scheme member) |
| CAC: The total additional employee's additional contributions (per type) for the Scheme year in respect of the employment |
| CARC: The total additional employer's additional contributions (per type) for the Scheme year in respect of the employment |
| CEC1: Cumulative employee contributions (if any) deducted from pensionable pay in previous field |
| CEC2: Cumulative employee contributions (if any) deducted from pensionable pay in previous field |
| CPP1: Cumulative pensionable pay received in the employment during the Scheme year whilst in main section |
| CPP2: Cumulative pensionable pay received in the employment during the Scheme year whilst in 50/50 section |
| CRC: Cumulative employer contributions deducted from pensionable pay in respect of the employment |
| EAPC CAC: Cumulative additional pension contributions (APCs), if any, paid by the employee in respect of the employment |
| EAVC CAC: Cumulative additional voluntary contributions (AVCs), if any, paid by the employee in respect of the employment |
| FTE: Full-Time Equivalent final pay in respect of the employment for the scheme year |
| FPP: FTE Final Pay |
| KIT: Keep In Touch day |
| LGPC: Local Government Pensions Committee |
| LGPS: Local Government Pension Scheme |
| RAPC CARC: Cumulative additional pension contributions (APCs), if any, paid by the |

| |
|--|
| employer in respect of the employment |
| RAVC CARC: Cumulative additional voluntary contributions (AVCs), if any, paid by the employer in respect of the employment |
| SCAPC: Shared Cost Additional Pension Contributions (cost met by scheme member and the employer) |
| SCAVC: Shared Cost Additional Voluntary Contributions (cost met by scheme member and the employer) |
