Purpose of this guide

This guide will provide you with a comprehensive understanding of the i-Connect payroll extract file specification, including each of the data items that must be submitted to your administering authority every pay period.

Data items are mandatory, conditional, or optional for i-Connect data processing. Your administering authority may insist on some of the conditional or optional data items being provided.

Preparation

Record matching

i-Connect will automatically match, where possible, each separate post on your payroll system to a corresponding record on your administering authority's pensions administration system (referred to throughout this document as 'the target system'). The matching process uses employees' National Insurance numbers, together with a unique payroll identifier.

Unique payroll identifier

A unique payroll identifier must be present for each payee/post on the payroll extract file. This key can be a combination of fields held on the payroll system, for example, payroll reference, employee reference and post number. There are three 12-character fields available on the payroll extract file to output the unique payroll identifier:

- Payroll Reference 1 (Data Item 2)
- Payroll Reference 2 (Data Item 3)
- Payroll Reference 3 (Data Item 4)

These three fields provide you and your administering authority with the flexibility to create a unique payroll identifier in a single field or across multiple fields.

The examples in the table below use the following information:

- National Insurance Number: AA123123A
- Payroll Reference: 555444
- Post Number: 144-543

Unique Payroll Identifier	National Insurance Number	Payroll Reference 1	Payroll Reference 2	Payroll Reference 3
Single Field	AA123123A	555444144543		
Multiple Fields (2)	AA123123A	555444	144-543	
Multiple Fields (3)	AA123123A	555444	144	543

Each of the three payroll reference fields corresponds to a specific field on the target system. Your administering authority will provide you with their specific field-level matching requirements as part of the i-Connect implementation process; please contact them as soon as possible if this information has not been provided.

The selected matching method must be consistent for all records on the payroll extract file.

Extract file creation preparation

File format

All payroll extract files uploaded into i-Connect must be saved as comma-separated-value (CSV) files. Files not in this format will be rejected during the upload process.

Fields containing commas must be embedded within a set of double quotes (commonly referred to as 'text qualifiers'), to maintain data integrity. For example, a data entry in Address Line 1 (data item 15), with a comma present, would be output as:

```
"Dun Roamin, Dun Campin"
```

Header row

A header row must be present on the first row of each payroll extract file, to describe the i- Connect data items. Failure to include a header row will result in the first record on the file being omitted from processing, as i-Connect always assumes the first row is the header.

A sample header row is:

```
NI_NUMBER,PAY_REF_1,PAY_REF_2,PAY_REF_3,ADD_LINE_1,ADD_LINE_2,
ADD_LINE_3,ADD_LINE_4,ADD_LINE_5,POSTCODE,EMAIL_ADDRESS,TELEPH

CUMULATIVE_SCAPCs,CUMULATIVE_APCs,EMPLOYEES_5050_
CONTS,CUMULATIVE_EMPLOYEES_5050_CONTS,SCAPCs,APCs
```

The column names do not have to be identical to those above, but the field ordering must be the same as the order specified in section 5.

Duplicate records

All records on the i-Connect payroll extract file must be unique. Uploaded files will be rejected if there are one or more records containing duplicate combinations of National Insurance Number and the unique payroll identifier.

Other payroll extract file considerations

- The order of the data items must match the order specified in the file layout.
- The payroll period end date (data item 23) must be the same on all records.
- Blank rows must not be present in the payroll extract file.
- Ensure all leading zero values remain if the file has to be converted to CSV format.
- Ensure all transactions processed after the payroll cut-off date are included on the i- Connect payroll extract file report. This must include new starters, leavers, post changes and so on.
- Part-time hours must be pro-rated for term-time employees.
- Negative values are indicated by a minus '-' character at the beginning of the data field (for example, '-115.64').

Uploading data

Preparing to upload data

Please read the i-Connect User Guide for Employers and ensure that you can answer 'Yes' to the following questions before attempting to upload any data into i-Connect:

- Is the file in the correct format?

- Have you used the correct payroll-period-end date?

- Are all the records unique?

- Has your administering authority provided you with a username?

- Have you completed the i-Connect registration process?

Processing times

The following table provides approximate timings for processing payroll extract files in i- Connect. The first stage, 'File Upload/Employment Check', checks the structure of the file, validates the data and checks whether any payees have been deleted from the target system by the administering authority. The second stage, 'Target System Update', uploads the detected events to the administering authority's target system:

Number of Records	Approx. Processing Times (mins)	
	File Upload/ Employment Check	Target System Update
1,000	15	20
2,000	20	40
5,000	30	100
7,500	50	150
10,000	70	200
15,000	100	300
20,000	120	400

Note: Processing times can vary, depending on Internet speeds and the number of employers using the i-Connect service.

54	FULL TIME EQUIVALENT FINAL PAY		Full-time equivalent pensionable pay in respect of the employment for the scheme year (pre-CARE scheme definition)	10	**Mandatory**
Example:	18000.00	ANNUAL			
Notes:	Please enter the member's annual final pay, based on the pre-CARE definition of pay for the current financial year. Please contact your administering authority if you are unable to provide an accurate FTE final pay. i-Connect recommends that this field be populated with '0.00' until a satisfactory arrangement has been agreed with the administering authority. A value is required before the scheme year end for use with annual benefit statements and member self-service systems. Enter only numbers and decimal point. **Mandatory - populate with '0.00' if null.**				

Item	Data Item		Description	Maximum Number of Characters	Mandatory / Optional
55	CUMULATIVE EMPLOYEE'S MAIN SECTION CONTRIBUTIONS		Employee's main section cumulative scheme contributions	10	**Mandatory**
Example:	999.99	CUMULATIVE			
Notes:	Please enter the cumulative contributions to date total for the employee's main section scheme contributions, for the current financial year. Enter only numbers and decimal point. **Mandatory - populate with '0.00' if null.**				
56	CUMULATIVE EMPLOYER'S CONTRIBUTIONS		Employer's cumulative scheme contributions	10	**Mandatory**
Example:	1999.98	CUMULATIVE			
Notes:	Please enter the cumulative contributions to date total for the employer's scheme contributions for the current financial year. Enter only numbers and decimal point. **Mandatory - populate with '0.00' if null.**				
57	REASON FOR LEAVING		Reason the employee terminated employment	100	Optional
Example:	Voluntary Early Retirement				
Notes:	This is a 100-character (including spaces) field to hold the reason why the employee's employment has terminated.				

Item	Data Item		Description	Maximum Number of Characters	Mandatory / Optional
58	CUMULATIVE EMPLOYER SHARED COST APCs		Cumulative shared cost additional pension contributions (employer contributions only)	10	Optional
Example:	1050.00	CUMULATIVE			
Notes:	Please enter the cumulative contributions to date total for any shared cost additional pension contributions you pay on behalf of the employee (employee contributions should be excluded). Enter only numbers and decimal point. **Leave blank or populate with zero values if null.**				
59	CUMULATIVE EMPLOYEE APCs		Cumulative employee additional pension contributions (include employee SCAPC contributions, but exclude employer SCAPC contributions)	10	Optional
Example:	1050.00	CUMULATIVE			
Notes:	Please enter the cumulative contributions to date total for any additional pension contributions the employee is paying. Employee SCAPC contributions should be included; please do not include any employer SCAPC contributions. Enter only numbers and decimal point. **Leave blank or populate with zero values if null.**				
60	EMPLOYEE'S 50/50 SECTION CONTRIBUTIONS		Employee's 50/50 section scheme contributions for the current payroll period	10	**Mandatory**
Example:	360.00	PAY PERIOD			
Notes:	Please enter the employee's 50/50 section scheme contributions for the current payroll period. Enter only numbers and decimal point. **Mandatory - populate with '0.00' if null pay this period.** **Negative values are valid.**				

Item	Data Item		Description	Maximum Number of Characters	Mandatory / Optional
61	CUMULATIVE EMPLOYEE'S 50/50 SECTION CONTRIBUTIONS		Employee's cumulative 50/50 section scheme contributions	10	**Mandatory**
Example:	999.99	CUMULATIVE			
Notes:	Please enter the cumulative contributions to date total for the employee's 50/50 section scheme contributions, for the current financial year. Enter only numbers and decimal point. **Mandatory - populate with '0.00' if null.**				
62	PAY PERIOD SHARED COST APCs		Pay period shared cost additional pension contributions (employer contributions only)	10	Optional

Frequently asked questions (FAQs)

We have compiled a list of common questions and answers below; please contact the i- Connect support desk if you have any other questions or comments relating to this guide:

1. Should I include all payees on the payroll extract file, including those employees who have previously opted out of the scheme?

   Whether you include opt-outs on the payroll extract file is entirely up to you and your administering authority, and the inclusion of opt-outs should be agreed during the implementation stage.

   If you do decide to include opt outs, the difference between the 'Opt Out Date' (data item 50) and the 'Date Joined Scheme' (data item 41) must be less than three months. This is because i-Connect will create new starter records on your administering authority's target system for each opt-out, irrespective of whether they ever existed on the target system, and a date of less than three months will ensure that the starter records are created with a status of 'Opt Out'.

2. What should I do if an Opt Out re-joins the scheme?

   You must remove the 'Opt Out Date' from data item 50 and insert an 'Opt In Date' in data item 51. The 'Opt In Date' should remain on the payroll extract file each month.

3. How do I record service?

   Examples have been included below:

   Part Time Employee

Part Time Hours Effective Date	Part Time Hours	Part Time Indicator	Whole Time Equivalent Hours
01/05/2012	28.75	Y	37

   Whole Time Employee

Part Time Hours Effective Date	Part Time Hours	Part Time Indicator	Whole Time Equivalent Hours
01/05/2012			

   Casual Employee

Part Time Hours Effective Date	Part Time Hours	Part Time Indicator	Whole Time Equivalent Hours
19/11/2014		C	

4. How do I record part-time hours for casual employees?

   Part-time hours should be left blank if the employee is casual. Your administering authority will ask you for a summary of the total hours worked as part of their year- end process.

5. How do I pro-rata the hours for term-time-only employees?

   Part-time hours must be pro-rated if the employee is term-time only. Two examples are provided below. Please check with your administering authority to ensure this complies with their own guidelines for pro-rating term-time service:

   Example 1 – Part-time, term-time only:

   Jennifer works for 12 hours per week during term time (full-time equivalent hours are 37). Her contract is for 39 weeks per year, plus 4.4 weeks' holiday, totalling

   43.4 weeks. The following calculation can be used to pro-rata her hours:

   ```
   43.4 weeks/52 weeks x 12 hours = 10.02
   ```

   Jennifer's part-time hours should be supplied as 10.02 and her whole-time equivalent hours as 37.00.

   Example 2 – Whole-time, term-time only:

   Colin works whole-time during term time (37 hours per week). His contract is also for 39 weeks per year, plus 4.4 weeks' holiday, totalling 43.4 weeks. The following calculation can be used to pro-rata his hours:

   ```
   43.4 weeks/52 weeks x 37 hours = 30.88
   ```

   Colin's part-time hours should be supplied as 30.88 and his whole-time equivalent hours as 37.00.

6. What happens if there is more than one part-time hours change in a single pay period?

   i-Connect can process only one part-time hours change in a single pay period. The latest hours change in the pay period, together with the effective date, should be output to the patrol extract file. Any earlier changes within the same pay period should be communicated via a separate report directly to the administering authority.

7. Why are payroll extract files with duplicate records rejected?

   This is because your administering authority records separate data on the target system for each active post on the payroll system, and there are one or more records containing duplicate combinations of National Insurance Number and the unique payroll identifier on the payroll extract file.

8. My payroll system does not store all the elements required to calculate Full-Time Equivalent Pay (Data Item 54), for employees who joined the scheme before 1 April 2014 (England and Wales) or 1 April 2015 (Scotland/Police and Fire); are there any alternative values I can use?

   You should discuss the use of alternative values for data item 54 with your administering authority.

9. Why have salary validation errors been detected?

   This is because an annual salary is in data item 38, but an effective date has been omitted from data item 40, or vice versa.

10. One or more of my payees do not have a National Insurance number; what should I do?

   You will be unable to include the member on the payroll extract file until a National Insurance number is provided, as this is a mandatory field on your administering authority's target system. They may be happy to accept a temporary National Insurance number for pension administration purposes.

11. How do I record additional contributions?

    Cumulative additional voluntary contributions should be output to 'Additional Contributions 1' (data item 24), the cumulative values of all other additional contributions should be added together and output to 'Additional Contributions 2' (data item 25).

    Employer contributions cannot be stored on the target system.

12. What type of employment break should I notify to the administering authority?

    You should notify your administering authority only of any unpaid breaks in service, for example, strike, maternity or paternity breaks.

13. How long should leavers remain on the payroll extract file?

    Leavers can remain on the payroll extract file indefinitely, although it is recommended that they be purged on a regular basis. Generally, leavers remain on the payroll extract file for an additional pay period after the leaver notification, to ensure that any arrears of pay (usually for claims-based employees), are processed via i-Connect.

14. How do I record assumed pensionable pay?

This should be included in pensionable pay (data item 39) and the main and/or 50/50 section cumulative pay (data items 52 and 53).

About this version

Sometimes we need to make changes to our specification due to circumstances outside of our control, such as legislation changes. If this happens, we will make sure we minimise disruption and give you plenty of time to start using the new payroll extract file specification.

Version	Date	Data Item	What's changed?
3.80	19/03/2024	44	Clarification that the part-time hours effective date cannot be earlier that the members date joined scheme.
3.70	19/01/2023	37	Removal of Auto Enrolment Qualifying Earnings – field is now filler reserved for future use.
3.60	12/03/2021	44	Signposting how to pro-rata part-time hours for term-time employees.
3.50	19/12/2019	48	Max number of characters has been changed from 5 to 10 to correct a documentation error.
3.40	12/07/2019	29	Suspension Reason renamed Employment Break reason. Notes updated.
3.30	29/04/2019	26 27 29	SUSPENSION has been renamed to EMPLOYMENT BREAK. The SMP INDICATOR has been renamed EMPLOYMENT BREAK REASON. A new list of employment break reasons has been added, however existing customers can still use 'Y' to indicate the employment break reason was due to maternity or paternity leave, to avoid changing any existing extract reports.
3.30	29/04/2019	37	AUTO ENROLMENT QUALIFYING EARNINGS has changed from mandatory to conditional. The data item only needs to be populated for new starters.
3.30	29/04/2019	43	The PART-TIME HOURS EFFECTIVE DATE has been renamed to PART-TIME/WHOLE-TIME HOURS EFFECTIVE DATE. The data item should be completed for part-time and whole-time members.

| 3.30 | 29/04/2019 | 45 | The PART-TIME INDICATOR data item has been updated to include part-time indicators used for employees in the modified and retained sections of the Firefighters' Pension Scheme. |
| 3.30 | 29/04/2019 | | The FAQ section has been amended to include part-time hours examples. |
